## **On Moods:**

**On Moods** Annie Besant, 1914      **Life and Life After Death & On Moods** Annie Besant, 2012-06-13 Two Adyar Pamphlets by Annie Besant the first one of Life after Death the second one on the significance of moods      Self and Affect Stefan Lang, Maik Niemeck, 2025-01-11 The self self awareness and emotions are central subjects within contemporary philosophy of mind but comparatively little attention has been paid to the relationships between them This volume brings together philosophers from different specialisms to explore these relationships from three different angles First whether a theory of self awareness can contribute to a theory of emotion including how different aspects and kinds of self awareness are related to different emotions Second from the opposite direction whether research into emotions can help achieve a better understanding of self consciousness Finally the book considers how emotions are involved in the nature and development of selves Self and Affect is essential reading for all scholars and researchers of the philosophy of mind especially those focussing on emotions and self awareness      *Mood* Birgit Breidenbach, Thomas Docherty, 2019-04-10 Mood is a phenomenon whose study is inherently interdisciplinary While it has remained resistant to theorisation it nonetheless has a substantial influence on art politics and society Since its practical omnipresence in every day life renders it one of the most significant aspects of affect studies it has garnered an increasing amount of critical attention in a number of disciplines across the humanities sciences and social sciences in the past two decades Mood Interdisciplinary Perspectives New Theories provides a comprehensive theoretical and empirical exploration of the phenomenon of mood from an interdisciplinary angle Building on cutting edge research in this emerging field and bringing together established and new voices it bridges the existing disciplinary gap in the study of mood and further consolidates this phenomenon as a crucial concept in disciplinary and interdisciplinary study By combining perspectives and concepts from the literary studies philosophy musicology the social sciences artistic practice and psychology the volume does the complexity and richness of mood related phenomena justice and benefits from the latent connections and synergies in different disciplinary approaches to the study of mood      **Handbook of the Sociology of Emotions: Volume II** Jan E. Stets, Jonathan H. Turner, 2014-08-18 Handbook of the Sociology of Emotions Volume II presents all new chapters in the ever developing area of the sociology of emotions The volume is divided into two sections Theoretical Perspectives and Social Arenas of Emotions It reviews major sociological theories on emotions which include evolutionary theory identity theory affect control theory social exchange theory ritual theory and cultural theory among others Social arenas where emotions are examined include but are not limited to the economy and the workplace the family mental health crime sports technology social movements and the field of science All the chapters review the major theories and research in the area and each chapter ends with some discussion of directions for future research The Sociology of Emotions is a fast growing and vital field in the broad discipline of Sociology This volume II follows the Handbook of the Sociology of Emotions which was first published in 2006 In 2008 this first

handbook received the Outstanding Recent Contribution in the Emotions Section of the American Sociological Association With contributions from leading scholars from different areas in the discipline such as neurosociology culture economics mental health gender social movements discussing state of art theory and research on emotions in sociology this volume will generate wider appeal to the sociological community

**The Emotions of Protest** James M. Jasper, 2018-05-24 In Donald Trump s America protesting has roared back into fashion The Women s March held the day after Trump s inauguration may have been the largest in American history and resonated around the world Between Trump s tweets and the march s popularity it is clear that displays of anger dominate American politics once again There is an extensive body of research on protest but the focus has mostly been on the calculating brain a byproduct of structuralism and cognitive studies and less on the feeling brain James M Jasper s work changes that as he pushes the boundaries of our present understanding of the social world In *The Emotions of Protest* Jasper lays out his argument showing that it is impossible to separate cognition and emotion At a minimum he says we cannot understand the Tea Party or Occupy Wall Street or pro and anti Trump rallies without first studying the fears and anger moral outrage and patterns of hate and love that their members feel This is a book centered on protest but Jasper also points toward broader paths of inquiry that have the power to transform the way social scientists picture social life and action Through emotions he says we are embedded in a variety of environmental bodily social moral and temporal contexts as we feel our way both consciously and unconsciously toward some things and away from others Politics and collective action have always been a kind of laboratory for working out models of human action more generally and emotions are no exception Both hearts and minds rely on the same feelings racing through our central nervous systems Protestors have emotions like everyone else but theirs are thinking hearts not bleeding hearts Brains can feel and hearts can think

*Lost in Dialogue* Giovanni Stanghellini, 2017 In this book Stanghellini argues that to be human means to be in dialogue with alterity that mental pathology is the outcome of a crisis of one s dialogue with alterity and that care is a method wherein dialogues take place whose aim is to re enact interrupted dialogue with alterity within oneself and with the external world
