On Being Liked:

On Being Liked James Alison, 2003 *On Being Liked* is the transforming and joyful sequel to *Faith Without Resentment* which established the Catholic priest and writer James Alison as one of the most striking voices in the church. He takes us step by step through a bold adventure reimagining the central axis of the Christian story while to our astonishment and wonder we discover ourselves as liked not only loved in the eyes of God. *The Psychology of Friendship* Mahzad Hojjat, Anne Moyer, 2016-10-24 In the late 20th and 21st centuries the meteoric rise of countless social media platforms and mobile applications have illuminated the profound need friendship and connection have in all of our lives and yet very few scholarly volumes have focused on this unique and important bond during this new era of relating to one another. Exploring such topics as friendship and social media friendship with current and past romantic partners co-workers mentors and even pets editors Mahzad Hojjat and Anne Moyer lead an expert group of global contributors as they each explore how friendship factors within our lives today. What does it mean to be a friend? What roles do friendships play in our own development? How do we befriend those across the race ethnicity gender and orientation spectrums? What happens when a friendship turns sour? What is the effect of friendship good and bad on our mental health? Providing a much needed update to the field of interpersonal relations *The Psychology of Friendship* serves as a field guide for readers as they shed traditional definitions of friendship in favor of contemporary contexts and connections. **The Scandal of Evangelicals and Homosexuality** Mark Vasey-Saunders, 2016-03-09 English evangelicals give the appearance of being a community at war with each other and with the world around them. The issue of homosexuality is one of the key battlegrounds. How has this issue become so significant to evangelicals? Why is it provoking such violent responses? How is it changing evangelicals and what might this mean for the future? This book examines the history of evangelical responses to the issue of homosexuality setting them in a wider historical and cultural context and drawing on the work of Rene Girard to argue that the issue of homosexuality has come to symbolise deeply held convictions within evangelicalism. The conflict over the issue that is now becoming apparent within evangelicalism reveals deep divisions within the evangelical community that will have great significance for the future. *The Scandal of Evangelicals and Homosexuality* offers an alternative perspective seeking not to present an answer to the ethical question but rather to examine the way the debate has become scandalised and consider the cost. It offers a window into contemporary English evangelicalism and provides an important contribution to international and ecumenical debate.

Abiding Faith Scott Cowdell, 2009-05-01 Australian theologian Scott Cowdell explores how having faith has changed under the influence of modernity and post modernity in the West. He returns faith from pious sentimentality and arid philosophy of religion to the realm of participating knowing paradigmatic imagination and personal transformation where it belongs as a form of life shaped by encounter with Jesus Christ and worked out through the Eucharistic community. This is shown to have been the typical understanding of faith from Saint Paul to the Fathers to the medieval monastic theologians.

Since the rise of nominalism however modern individuals reflecting a God newly remote from the world have struggled to maintain this participatory vision of faith as a formative habitat. Mysticism is as close as modernity got while officially faith was annexed by modern Western culture coming to share its anxious need for certainty and control, systemic exclusive and violent tending. Scott Cowdell has written a wide ranging book bringing together several normally separate debates while tackling the problem from a distinctive perspective. He explores faith against the backdrop of secularization, the collapse of community and the encroachment of an intentionally destabilizing consumer culture. He expounds the nature of desire in terms of imitation and rivalry and the violent false sacred roots of cultural formation evident in the modern West's many victims all according to the uniquely comprehensive vision of Rene Girard. Finally he dismisses today's growing mood of militant religious skepticism as philosophically outdated and out of its depth before the resilient confidence of a genuine living faith. What Cowdell calls abiding faith emerges as a venerable yet strikingly contemporary possibility. This is good news for today's homeless hearts: there is the gift of a secure identity and a mature spirituality on offer within a liberating inclusive world affirming ecclesial form of life.
