accounts of those who survived and more The Tragedy of Liberation bears witness to a shocking largely untold history Interweaving stories of ordinary citizens with tales of the brutal politics of Mao's court Frank Dikötter illuminates those who shaped the liberation and the horrific policies they implemented in the name of progress People of all walks of life were caught up in the tragedy that unfolded and whether or not they supported the revolution all of them were asked to write confessions denounce their friends and answer queries about their political reliability One victim of thought reform called it a carefully cultivated Auschwitz of the mind Told with great narrative sweep The Tragedy of Liberation is a powerful and important document giving voice at last to the millions who were lost and casting new light on the foundations of one of the most powerful regimes of the twenty first century

Schrecker, 1991-05-30 This introduction to the social political and intellectual history of China offers new perspectives as it analyzes two crucial and interrelated questions Schrecker proposes new approaches for conceptualizing and evaluating China's modern revolution and the long and often misunderstood Chinese past clarifying a topic made more complex because the West and Western ideas have played crucial roles in the revolutionary process The volume presents a concise history of China reinterprets the revolution and its relationship to the past and provides valuable insights into the problems of contemporary China It is of importance for the general reader and should be useful as a text in courses in Chinese comparative and world history

### **On Chinese Revolution**

### **Revolution and**

**Counterrevolution in China** Lin Chun, 2021-09-28 A history of revolutionary China in the 20th century China under Xi

Jingping has been experiencing unprecedented change From the Belt and Road initiative to its involvement in Great Power struggles with the West China is facing the world once more in the hope of reclaiming a lost Chinese greatness But is Socialism with Chinese Characteristics just neoliberal capitalism under another name And if so how can China reclaim the heritage of the Revolution in this its 70th anniversary In this panoramic study of Chinese history in the twentieth century Lin Chun argues that the paradoxes of contemporary Chinese society do not merely echo the tensions of modernity or capitalist development Instead they are a product of both the contradictions rooted in its revolutionary history and the social and political consequences of its post socialist transition Revolution and Counterrevolution in China charts China's epic

revolutionary trajectory in search of a socialist alternative to the global system and asks whether market reform must repudiate and overturn the revolution and its legacy    **The Chinese Revolution** Paul J. Byrne, 2007 Presents an account of the Chinese Civil War and what the communist victory meant to Chinese society and the Chinese people    *China 1945* Richard Bernstein, 2015-10-27 At the beginning of 1945 relations between America and the Chinese Communists couldn't have been closer Chinese leaders talked of America helping to lift China out of poverty Mao Zedong himself held friendly meetings with U.S. emissaries. By year's end Chinese Communist soldiers were setting ambushes for American marines. Official cordiality had been replaced by chilly hostility and distrust a pattern which would continue for a quarter century with the devastating wars in Korea and Vietnam among the consequences. In *China 1945* Richard Bernstein tells the incredible story of the sea change that took place during that year brilliantly analyzing its far reaching components and colorful characters from diplomats John Paton Davies and John Stewart Service to Time journalist Henry Luce in addition to Mao and his intractable counterpart Chiang Kai-shek and the indispensable Zhou Enlai. A tour de force of narrative history *China 1945* examines American power coming face to face with a formidable Asian revolutionary movement and challenges familiar assumptions about the origins of modern Sino-American relations    *Mao and the Chinese Revolution* Yves

Chevrier, 2023-09-26 It has been more than a century since the birth of Mao Zedong. From the collapse of the old Chinese Empire in 1912 to the foundation of the People's Republic in 1949 his history is linked with that of contemporary China and beyond national borders with the history of communism as well. His version of guerrilla warfare and revolution resulted in the construction of a socialist society that became a model of socialism throughout the world. Both a tyrant and rebel Mao wanted to rule through revolution. Yet the Great Leap Forward 1958 and the Cultural Revolution 1966 each plunged China into chaos without saving it from totalitarianism. After 1978 de-Maoization and economic reforms by Deng Xiaoping helped heal the country's wounds but the future yet remains uncertain. Whether to be an empire united or broken serenely open or in conflict democratic or authoritarian egalitarian or prosperous so many lingering questions remain of those that Mao and his generation began asking nearly a century ago. Was the Maoist Revolution futile? Would China have been better off without Mao and is such a thing imaginable?
