On Intelligence:

On Intelligence Stephen J. Ceci, 2009-07-01 Ceci argues that traditional conceptions of intelligence ignore the role of society in shaping intelligence and underestimate the intelligence of non Western societies He puts forth a bio ecological framework of individual differences in intellectual development that is intended to address some of the major deficiencies of extant theories of intelligence The focus is on alternative interpretations of phenomena that emerge when implicit assumptions of intelligence researchers are challenged

On Intelligence John Hughes-Wilson, 2016-03-03 This book is a professional military intelligence officer's and a controversial insider's view of some of the greatest intelligence blunders of recent history It includes the serious developments in government misuse of intelligence in the recent war with Iraq Colonel John Hughes Wilson analyses not just the events that conspire to cause disaster but why crucial intelligence is so often ignored misunderstood or spun by politicians and seasoned generals alike This book analyses how Hitler's intelligence staff misled him in a bid to outfox their Nazi Party rivals the bureaucratic bungling behind Pearl Harbor how in fighting within American intelligence ensured they were taken off guard by the Viet Cong's 1968 Tet Offensive how over confidence political interference and deception facilitated Egypt and Syria's 1973 surprise attack on Israel why a handful of marines and a London taxicab were all Britain had to defend the Falklands the mistaken intelligence that allowed Saddam Hussein to remain in power until the second Iraq War of 2003 the truth behind the US failure to run a terrorist warning system before the 9/11 WTC bombing and how governments are increasingly pressurising intelligence agencies to spin the party political line

Workshops Proceedings of the 5th International Conference on Intelligent Environments M. Schneider, A. Kröner, J.E. Alvarado, 2009-10-02 Advances in the engineering of sensing and acting capabilities distributed in wide range of specialized devices is providing at last an opportunity for the fundamental advances that computer science achieved in the past few decades to make an impact in our daily lives This technical confluence is matched by a unique historical context where users are better informed more aware of the benefits that technology can provide and production of more complex systems is becoming more affordable Sensors actuators deployed in an environment in this context it can be any physical space like a house office classroom car street etc facilitate a link between an automated decision making system connected to that technologically enriched space This computing empowered environment enables the provision of an intelligent environment i.e. a digital environment that proactively but sensibly supports people in their daily lives This is an active area of research which is attracting an increasing number of professionals in academia and industry worldwide The prestigious 5th International Conference on Intelligent Environments IE 09 is focused on the development of advanced intelligent environments and stimulates the discussion on several specific topics which are crucial to the future of the area As part of that five workshops were supported as part of IE 09 This volume is the combined proceedings of those five workshops Workshop on Digital Object Memories DOME 09 Workshop on RFID Technology concepts practices solutions RFID 09
