On Metaphor:

Michael Osborn on Metaphor and Style Michael Osborn, 2018-07-01 This volume features two dimensions of Michael Osborn's work with rhetorical metaphor. The first focuses on his early efforts to develop a conception of metaphor to advance the understanding of rhetoric while the second concerns more recent efforts to apply this enriched conception in the analysis and criticism of significant rhetorical practice. The older emphasis features four of Osborn's more prominent published essays revealing the personal context in which they were generated, their strengths and shortcomings, and how they may have inspired the work of others. His more recent unpublished work analyzes patterns of metaphor in the major speeches of Demosthenes, the evolution of metaphors of illness and cure in speeches across several millennia, the exploitation of the birth-death-rebirth metaphor in Riefenstahl's masterpiece of Nazi propaganda, *Triumph of the Will*, and the contrasting forms of spatial imagery in the speeches of Edmund Burke and Barack Obama, and what these contrasts may portend. **Variations**

on Metaphor Ilaria Rizzato, Francesca Strik Lievers, Elisabetta Zurru, 2021-08-13 Metaphor is a fascinating and at the same time complex phenomenon. It can be approached from a multitude of perspectives and the linguistic realizations of metaphors vary not only across languages but also across text genres, cultures, and time. This book reflects such complexity and variability by gathering a collection of studies that adopt different theoretical views and explore the actual uses of metaphors in different text types: literary, folkloric, journalistic, and scientific, and languages: Hungarian, Chinese, French, English, Italian, Latin, and Ancient Greek. By providing the reader with a view of metaphor and current metaphor research which is both diversified and coherent, this volume will provide insights for cognitive linguists, scholars involved in metaphor studies, and more generally, readers interested in linguistic variation. **Philosophical Perspectives on Metaphor** Mark Johnson, 1981

Philosophical Perspectives on Metaphor was first published in 1981. Minnesota Archive Editions uses digital technology to make long unavailable books once again accessible and are published unaltered from the original University of Minnesota Press editions. We are says Mark Johnson in the midst of metaphormania. The past few years have seen an explosion of interest in metaphor as a vehicle for exploring the relations between language and thought. While a number of recent books have dealt with metaphor from the standpoints of several disciplines, there is no collection that shows the best of the work that has been done in the field of philosophy. Mark Johnson has brought together essays that define the central issues of the discussion in this field. His introductory essay offers a critical survey of historically influential treatments of figurative language including those of Aristotle, Hobbes, Locke, Kant, and Nietzsche, and sets forth the nature of various issues that have been of interest to philosophers. Thus it provides a context in which to understand the motivations, influences, and significance of the collected essays. An annotated bibliography serves as a catalog of all relevant literature. *Philosophical Perspectives on Metaphor* provides an entry point into the philosophical exploration of metaphor for students, philosophers, linguists, psychologists, artists, critics, or anyone interested in language and its relation to understanding and experience. Rhetorical

Movements Based on Metaphor with a Case Study of Christian Science and Its Rhetorical Vision, 1898-1910 Jean Angela McDonald, 1978 *Essays on Metaphor* Warren A. Shibbes, 1972 **Metaphor** E. B., Henry Watson Fowler, Arthur Clutton-Brock, 1922 *Metaphor in Focus* Francesca Ervas, Elisabetta Gola, 2014-09-18 This book is a philosophical guide on metaphor use Previous research concerning metaphors has focused on either the theoretical linguistic problems or the uses in specific research fields Although these domains share some common interests there has been little cross communication The aim of this volume is to bridge the gap between the theoretical and the empirical side of the research on metaphor use by analysing the role of metaphor over different domains of use Therefore while adopting a theoretical philosophical point of view the volume also presents the interdisciplinary connections between philosophy and other academic areas such as linguistics cognitive science discourse analysis communication studies didactics economics arts and political science **On Metaphor** Sheldon Sacks, 1979 On Metaphor a collection of fourteen essays by eminent philosophers literary critics theologians art historians and psychologists illustrates and explores a striking phenomenon in modern intellectual history the transformation of metaphor from a specialized concern of rhetoricians and literary critics to a central concept in the study of human understanding These lively and provocative essays probe the nature function and meaning of metaphor and collectively demonstrate the multidisciplinary implications of the concept Because of its comprehensive scope the volume is useful both as a resource for those interested in contemporary philosophy and theories of language and as a text for courses in such areas as the philosophy of language critical theory and the philosophy of knowledge Originally published as a special issue of Critical Inquiry the present collection includes two new contributions by Max Black and Nelson Goodman along with a comprehensive index to the work *Metaphor and Comparison in the Epistulae Ad Lucilium of L. Annaeus Seneca* Charles Sidney Smith, 1910 *The Rhetoric of Aristotle* Aristotle, Edward Meredith Cope, 1877 A Handbook of Poetics for Students of English Verse Francis Barton Gummere, 1886 *Metaphor as a Mode of Abstraction* F.
