**Battleground Studio: Adrian Ghenie - The Works on Paper** Staatliche Kunstsammlungen Dresden, Björn Egging, 2025-03-19 Adrian Ghenie is one of the most

acclaimed artists of his generation. He is interested in the dangers and catastrophes caused by the ideologies of the 20th century which the artist describes as the century of humiliation. The gloomy setting of his paintings and the deformed figures reveal the physical and psychological injuries caused by dictatorship and war. In the group of current charcoal drawings Ghenie transfers his theme to the present and deals with the effects of digital media on people. The now extensive oeuvre of drawings and collages plays a central role in the pictorial alienation through motif montage and abstraction which is presented for the first time in the Dresden Kupferstich Kabinett in its development from the beginnings to the present day. Adrian Ghenie 1977 in Baia Mare Romania is one of the most celebrated painters of his generation. His work is considered posthumously born in the Nietzschean sense blending past influences with contemporary themes. Ghenie is known for merging personal political and art historical themes combining abstract and figurative elements and exploring the possibilities of his medium. He draws on personal memories art historical references film stills and internet visuals.

Historic Avant-Garde Work on Paper Sascha Bru, 2024-03-13 This book examines the many functions of paper in the fine art and aesthetics of the early twentieth century modernist or historic avant garde. Expressionism, Cubism, Futurism, Dadaism, Surrealism, Constructivism and many more. With its many collages and photomontages the historic avant garde is generally considered to have transformed paper from a mere support into an artistic medium and to have assisted in art on paper gaining a firm autonomy. Bringing together an international team of scholars this book shows that the story of paper in the avant garde has thereby hardly been told. The first section looks at a selection of canonized individual avant gardists work on paper to demonstrate that the material and formal analysis of paper in the avant garde's artistic production still holds much in store. In the second section chapters zoom in on forms and formats of collective artistic production that deployed paper to move around reproductions of fine art works to facilitate the dialogue between avant gardists to better promote their work among patrons and to make their work available to a wider audience. Chapters in the third section lay bare how certain groups within the avant garde began to massively create monochrome works because these could be easily reproduced when transferred to or reproduced as linocuts. In the last section of the book chapters explore how the avant garde's attentiveness to paper almost always also implied a critique of the ways in which paper and all that it stood for was treated and labored in European culture and society more broadly. The book will be of interest to scholars working in art history, modernism and
