InDesign—Getting it Right, Right from the Start

Document Setup

Before you begin your project, getting your document set up correctly is very important. This document was created to help.

Build your document to the final trim size. **Live Area**, indicated by a gray rectangle in the example below, must be a minimum of an 1/4" (12% in) inside the trim. **Bleed**, images and backgrounds intended to extend to the edge of the page, must be extended an 1/4" (12% in) beyond trim to the bleed guide.

1 Document Trim Size
Build your document to the final trim size.

2 Live Area
Live Area, indicated by a gray rectangle in this example, must be a minimum of an 1/4" (12% in) inside the trim, including Page Numbers.

3 Bleed
Images and backgrounds intended to extend to the edge of the page must be extended an 1/4" (12% in) beyond trim.

4 Crop Marks
If you job skills, we can provide the current crop mark size and margins.
If you prefer, we can provide a template with the crop marks and dimensions at a non-printing layer.

Tip
If your job is for 1/4" (12% in), for example, you would add that amount to the width of the pages that get cut-out. All copy in text must be a min 1/4" (12% in) from trim.

Document Presets
Once you have entered the Page Size, Margins and Bleed amounts, click on the Save Document Preset icon.

TIP If you select Facing Pages (two-page spreads), please Export PDFs as Pages, not Spreads. Of course there are some exceptions. Please contact us with any questions.

**Adobe InDesign**
Download our Adobe PDF Preset.
