**Stock Market Investing For Beginners** Mark Atwood,2020-04-07 Curious to find out how investors like Warren Buffet are swimming in billions while the mass majority can't even break even Keep reading Investing in the stock market does have the potential to yield exceptional returns That we know However we fail to think that it can do that for us Successful investors were not born with special abilities that you and I do not have Everyone starts at a different place but inherently I couldn't think of a person that couldn't become a successful investor Still many people struggle to choose the right stocks and make a profit Most people don't even break even they lose money Soon they conclude that this thing isn't for them and give up That doesn't have to be the case You might want to invest part time for an extra 500 1000 to supplement your current income You might want to quit your job and get into it full time to try to make a living out of it Or in best cases

you're the type of person who wants to be financially free live a life without having to work another day in your life i.e. make millions.
