## Old Violins And Violin Lore:

Old Violins H. R. Haweis, 2017-09-12 Excerpt from Old Violins And Violin Lore What is the secret of the violin Why is it that when a great violinist appears all the other soloists have to take a back seat The answer is the fascination of the violin is the fascination of the soul unveiled No instrument the human voice hardly excepted provides such a rare vehicle for the emotions is in such close touch with the molecular vibrations of thought and with the psychic waves of feeling But whilst the violin equals the voice in sensibility and expression it far transcends it in compass variety and durability Consider the singular completeness and perfection of this instrument as a sort of physical and vibratory counterpart of the soul The four strings no doubt limit and define its compass and only in the quartet and collectively is it capable of extended effects of complex harmony but as a tone producing instrument and within its limits it is perfect every gradation of sound between tone and semitone is attainable and for no other instrument can this be claimed About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books Find more at [www.forgottenbooks.com](http://www.forgottenbooks.com) This book is a reproduction of an important historical work Forgotten Books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy In rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition We do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works

*Nineteenth-Century London* Tom Wilder,2025-03-18 Examines the violin's evolution as not just instrument but valued objet d'art through the eyes of musicians collectors makers dealers connoisseurs journalists auctioneers and traders The nineteenth century saw developments in the composition performance and reception of classical music that led to an unprecedented shift in how the violin was appreciated from humble craft object to one of art A utilitarian tool defined in 1800 by its tonal properties became by century's end an expensive objet d'art classified almost exclusively in terms of physical visible properties In London's vibrant musical life Cremonese violins acquired special significance and in turn helped shape the beliefs knowledge and behaviour of the disparate actors connected to the instrument musicians collectors makers dealers connoisseurs journalists auctioneers and traders By 1880 London had supplanted Paris as the centre of the international violin trade One firm in particular W E Hill Sons emerged as a major presence in both the local musical community and the global violin market The Hills were makers restorers dealers and connoisseurs They were also writers collectors and melomaniacs deeply implicated in London's instrument auction and exhibition scene The mutually reinforcing nature of these activities which they consciously turned to account for commercial reasons bear witness to events and developments earlier in the century Their story illuminates this first study of the violin's nineteenth century journey from simple musical instrument to mystified work of art
