Children's Book Award Handbook Diana F. Marks, 2006-03-30 Diana Marks looks at children's and young adult book awards in depth. The history, award criteria and a biography of the person behind each of the well known awards is included. Also of interest are lists of the winners in each category, teaching and exploration activities, reproducible teaching aides and a timeline of events leading up to the establishment of the award. Information about well known awards is accompanied by information on the lesser known Pura Belpré, Jane Addams etc. Information is formatted in quick, easy to read tables and charts suitable for classroom duplication. Although some of this information is available online, this is a one stop handbook that contains lesser known awards and offers activities for enriching the study of each award, whether well known or not. Grades K-8.

Children's Book Prizes Ruth Allen, 2019-01-22 First published in 1998, this book is the first comprehensive survey of the awards made to children's books in the English speaking world. The Volume covers nearly forty different prizes, including well known and established ones such as the Newbury Award prizes instigated by the commercial sector such as the Smarties Prize as well as nationally sponsored awards and prizes for illustrators. Detailed lists are provided of the winning titles and where appropriate the runners up in each year that the award has been given. Ruth Allen also presents some fascinating and often entertaining insights into the motivations behind awards and how they are viewed by authors, illustrators, publishers, librarians, booksellers and potential purchasers. The various criteria applied by judges of these awards are also examined with an assessment of whether they have always achieved the right result. This Volume is both a useful guide for adults wishing to buy good books for children and an important tool for those researching the history of the children's book industry.

Read to Succeed Joy Court, 2011-08-31 Concern about children's reading is an international issue highlighted by continuing OECD research. Government actions such as the priority given to reading in the review of the National Curriculum reflect current UK concern. Reading is an essential life skill not only for an individual's development and life chances but for social cohesion and a developed democracy. In an era of public spending cuts, it is important to reflect upon the impact that libraries can have in growing readers for the future. This much needed book provides valuable evidence of successes so far both nationally and internationally and offers ideas for future development as well as inspiration for current practice. An edited collection contributed by expert practitioners, it covers all aspects of promoting reading to and with children and young people from birth right through to teenage years, including the following key topics: the importance of Bookstart; how children begin to read; creating young readers; literacy, libraries and literature in New Zealand; the Summer Challenge in libraries; Stockport does Book Idol; restoring reading to the classroom; promoting excellence; shadowing the CILIP Carnegie and Kate Greenaway medals; local book awards; the sport of reading; libraries and partnerships; the hard to reach reader in the 21st century; creative reading; Readership Offering; future scoping for managers; and aiming to inspire partnership and cooperation. This will be invaluable reading for practitioners and students of librarianship in both the public and school sectors. It will also be of

great interest to all teachers consultants and educators concerned with literacy and reading and to policy makers in both the school and library sectors *Children's Picturebooks* Martin Salisbury, Morag Styles, 2012-01-30 Children's picturebooks are the very first books we encounter and they form an important constantly evolving and dynamic sector of the publishing world. But what does it take to create a successful picturebook for children? In seven chapters this book covers the key stages of conceiving a narrative, creating a visual language and developing storyboards and design of a picturebook. The book includes interviews with leading children's picturebook illustrators as well as case studies of their work. The picturebooks and artists featured hail from Australia, Belgium, Cuba, France, Germany, Hungary, Ireland, Italy, Japan, Norway, Poland, Portugal, Russia, Singapore, South Korea, Spain, Taiwan, the UK and the USA. In this publication Martin Salisbury and Morag Styles introduce us to the world of children's picturebooks, providing a solid background to the industry while exploring the key concepts and practices that have gone into the creation of successful picturebooks.
