## **Olympic Handbook:**

*Routledge Handbook of the Olympic and Paralympic Games* Dikaia Chatziefstathiou, Borja García, Benoit Séguin, 2020-07-12 This handbook offers an important and timely contribution to the interdisciplinary field of Olympic studies. It brings together for the first time in a single volume a complete analysis of current and future economic, commercial, socio-political, cultural and governance challenges facing both the Olympic and Paralympic Games, their athletes and institutions. The book presents new research and broad surveys exploring pressing debates, challenges and possible solutions surrounding the modern Olympic and Paralympic Games across diverse socioeconomic and political contexts. Featuring chapters written by leading scholars, athletes and administrators from a range of disciplines and backgrounds, the handbook is divided into four main areas: athletes, business, governance and socio-cultural issues within the Olympic and Paralympic Games. Examining key themes, theories and new emerging issues within the field, the book offers expert insights into every major topic related to the Olympic and Paralympic Games, including doping, integrity, athletes' rights, culture, nationality, sponsorship, branding, governance, sports policy and law, marketing, social media, technology, e-sports, politics, ethics, international relations, legacy and impact. The only up-to-date handbook to reflect the true breadth and depth of this international field of research, the *Routledge Handbook of the Olympic and Paralympic Games* is a landmark publication for all students and scholars of sport studies as well as those working in sport business, media, event management and administration, economics, marketing, management, politics, Olympic studies and cultural studies. Each chapter examines the cultural, pedagogical, political and societal challenges of teaching Olympic education as well as the national, individual and institutional programmes that have emerged. It explores key practical and conceptual issues such as the incorporation of Olympic values in PE curricula, sport coaching and coach education programmes while also taking into account the collaborative efforts of the governmental bodies, sport federations and Olympic institutions responsible for policy and implementation.
