Chronic Mental Illness in Children and Adolescents John G. Looney, 1988 The purpose of this book is to address the
problem of children and adolescents who have mental disorders that are chronic While some emotional disorders in
youngsters are reactive disorders which with professional help will be corrected by the natural process of psychological
growth there are youth who have illnesses that go on interminably For those children the existing mental health system has
been ineffective In order to begin to address the needs of such youngsters the first step is to bring together people
knowledgeable about the problem This volume integrates material presented at the National Conference on Chronic Mental
Illness in Children and Adolescents as well as knowledge that has developed since the time of that conference This reference
looks at many of the problems encountered in treating chronically mentally ill youngsters such as determining the population
of this group improving the method and quality of care delivery and analysis of epidemiological data and public policy
impediments The importance of skillful clinical work with families and methods of providing family assessment and care are
discussed Treatment evaluation to determine which modalities of care are most effective for which types of children is
discussed as part of the treatment program Much of this book focuses upon strategy policy and politics *Transactions*
