

Being Gay

**The heart concealed
Behind the facade,
Desire for him
Beneath the moustache,**

**My tastes strangled
In midst of your taboos,
Never to be kissed
And never to be loved**

**My love, that is hated
Never reciprocated,
Wasted, alienated
Estranged in life, in this world**

**I'll say it once more, I'm gay
I'll remain that way
I would smile
To the sinner devotees
To endless fatwas
To outcasting churches**

**In your world,
I'm the wrong, never to be
Understood why,
So I admit,
I'm wrong in your world
But just in your world**

**-----
Belong here not, I
But in God's kind eyes**

Thinking Straight About Being Gay T. M. Murray, 2015-08-14 Imagine a future scenario in which prospective parents will have the option to decide the sexual orientation of their offspring in the privacy of a doctor's consultation room In the past liberals dreaded the intrusion of a paternalistic state apparatus into the minutiae of people's private lives In the future they may have to fear the reverse that private reproductive decisions will impact the very demographic composition of future generations that make up the public Nowhere does this book claim that the ability to isolate a gay gene or similar genetic marker for homosexuality currently exists Rather it demonstrates how Christian bioethicists and liberal eugenicists have so far anticipated and addressed the seemingly implausible scenario just described and provides a liberal critique of the their arguments should pre-natal selection for sexual orientation ever become a genuine possibility Murray provides an unprecedented survey of Christian bioethicists' responses to the gay science of the 1990s and shows where they fit in a long religious tradition of stigmatizing and pathologizing homosexual people that stretches back to first-century Christian communities This book contains no assertion that all people who identify as homosexual gay lesbian bi or transgender are born that way Nor does it suggest that being born that way is a necessary condition for granting full legal acceptance of homosexual behavior Rather it reveals how religious teachings about human sexuality have both

misrepresented the facts of human nature and misjudged their ethical significance Murrays analysis provides an opportunity for the universal and global church and those who object to homosexuality as less than innate to reconsider and learn new perspectives Reverend Rowland Jide Macaulay Founder CEO House Of Rainbow Fellowship Lagos Nigeria and London United Kingdom A fresh informative and challenging contribution to the scientific and ethical issues concerning homosexuality which debunks traditional Christian objections and tackles the emerging debate around the potential of genome editing to eliminate same sex behaviour Peter Tatchell human rights campaigner
