On Flirtation:

On Flirtation Adam Phillips, 1994 This is a book about the possibilities of flirtation its risks and instructive amusements about the spaces flirtation opens in the stories we tell ourselves particularly within the framework of psychoanalysis **On Flirtation** Adam Phillips, 1994-01-01 *On Flirtation* Phillips a Staff, 1994-09-01 Flirtations Barbara Natalie Nagel, Lauren Shizuko Stone, 2015-05-01 What is flirtation and how does it differ from seduction In historical terms the particular question of flirtation has tended to be obscured by that of seduction which has understandably been a major preoccupation for twentieth century thought and critical theory Both the discourse and the critique of seduction are unified by their shared obsession with a very determinate end power In contrast flirtation is the game in which no one seems to gain the upper hand and no one seems to surrender The counter concept of flirtation has thus stood quietly to the side never quite achieving the same prominence as that of seduction It is this elusive and largely ignored territory of playing for play s sake that is the subject of this anthology The essays in this volume address the under theorized terrain of flirtation not as a subgenre of seduction but rather as a phenomenon in its own right Drawing on the interdisciplinary history of scholarship on flirtation even as it re approaches the question from a distinctly aesthetic and literary theoretical point of view the contributors to *Flirtations* thus give an account of the practice of flirtation and of the figure of the flirt taking up the act s relationship to issues of mimesis poetic ambiguity and aesthetic pleasure The art of this poetic playfulness often read or misread as flirtation s empty gesture becomes suddenly legible as the wielding of a particular and subtle form of nonteleological power *The Sexual Question* Auguste Forel, 2021-04-25 In *The Sexual Question* Auguste Forel delves into the complexities of human sexuality systematically dissecting its biological psychological and social facets Forel s approach is characterized by a meticulous blend of empirical observation and philosophical inquiry drawing on his expertise in psychology and neurophysiology Written during a time of burgeoning sexual science in the late 19th century the book navigates through topics such as sexual education sexual morality and the nature of sexual desire embedding these discussions within the broader context of social reform and emerging feminist thought Auguste Forel a pioneering Swiss psychiatrist myrmecologist and a notable figure in the field of sexual science was profoundly influenced by the scientific advancements and social upheavals of his time His academic grounding and personal convictions regarding the necessity of sexual education for societal progress led him to explore the intricacies of human sexuality with unprecedented rigor Forel s unique position at the crossroads of science and progressive ideology distinctly shapes the narrative of this seminal work *The Sexual Question* stands as an essential read for anyone seeking to better understand the historical antecedents of contemporary sexual discourse Forel s insightful analysis and earnest call for education and openness continue to resonate making this book not just a scholarly work but a vital resource for both academics and lay readers interested in the dynamics of human sexuality In this enriched edition we have carefully created added value for your reading experience A succinct
