

On Human Conduct

James Welsh

On Human Conduct:

On Human Conduct Michael Oakeshott, 1996 *On Human Conduct* Michael Oakeshott, 1975 *On Human Conduct* is composed of three connected essays Each has its own concern the first with theoretical understanding and with human conduct in general the second with an ideal mode of human relationship which the author has called civil association and the third with that ambiguous historic association commonly called a modern European state Running through the work is Professor Oakeshott's belief in philosophical reflection as an adventure the adventure of one who seeks to understand in other terms what he already understands and where the understanding is sought is a disclosure of the conditions of the understanding enjoyed and not a substitute for it Its most appropriate expression is an essay which he writes does not dissemble the conditionality of the conclusions it throws up and although it may enlighten it does not instruct

Perspectives on Human Conduct Hertzberg, Pietarinen, 2021-11-01 **Human Conduct** John Hospers, 1963

Animal and Human Conduct William E. Ritter, 2018-02-19 Originally published in 1928 this title looks at the link between animal and human conduct It had long been recognized on the basis of their activities that many animals possess minds and that these are similar in a considerable number of respects to human minds According to the author this book looks at man's position within nature from the perspective of a naturalist rather than a psychologist or philosopher He has attempted to describe the working of mind and body in human beings and in other living things to examine critically the mental technique involved in such descriptions and to reason broadly as to the bearings of the facts and processes on human life Now it can be read and enjoyed in its historical context **Understanding Human Conduct** Sam S. Cheung,2012-07-21 The Poetic Character of Human Activity is a collection of essays by two Oakeshott scholars most of which explores the meaning of Oakeshott's pregnant phrase the poetic character of human activity by comparing and contrasting this idea with similar and opposing ones in particular those of the Taoist thinker Zhuangzi Chuang Tzu and his Western interpreter A C Graham Oakeshott's deep appreciation of the poetic and non instrumental character of human activity led him to develop an interest in the works of Zhuangzi and Confucius Comparison of shared themes between Oakeshott and these two Chinese thinkers facilitates appreciation of his elegant analytic style and his resort to use of metaphors and story telling when conveying some of his most profound insights The collection also contains essays contrasting Oakeshott's idea of the creative in human experience with views of among others Plato Leo Strauss and Eric Voegelin Oakeshott used the phrase the poetic character of human activity arguably the animating center of his entire thought to refer to the creative character of human experiential reality that is to the fact that the form the how and content the what of all human experience and activity arise simultaneously and fluidly and can be separated only at the expense of theoretical coherence and practical skill The various essays in this collection explore the meaning of this claim and its ramifications for the proper role of critical intellect in especially philosophy morality learning and governance There is also some brief contrast of Oakeshott with John Rawls Alasdair MacIntyre Charles Taylor and Quentin Skinner
