The Politics of Authenticating Revisiting New Orleans Jazz sets forth an entirely new approach to the study of authenticity based not upon a search for finding the true meaning of the concept or unmasking its claims Rather it details a grounded theory of authenticating as a basic socio political process important in understanding the origins development and consequences of competing knowledge claims in diverse areas of human experience and activity over time and place The book is part jazz historiography part autoethnography and part memoir It details Richard Ekins revisiting of the quest for authenticity in the social worlds of international New Orleans revivalist jazz from the early 1960s onwards from his standpoint as a social constructionist social scientist and cultural theorist The book grew out of a series of long detailed conversations between Ekins and his interlocutor Robert Porter and captures the energy and dynamism of these exchanges in the writing of the text providing what the authors call a riff methodology that might be drawn on by other scholars concerned to write books that revisit aspects of their personal and professional lives **American Social**

United States. National Labor Relations Board, 2002 **Pragmatism, Education, and Children**, 2008-01-01 This book presents fourteen new essays by international scholars about the intersections between pragmatism education and philosophy with children Pragmatism from its beginnings has sought a revolution in learning and is itself a special kind of philosophy of education What can the applications of pragmatism to pedagogy around the world teach us today

Pragmatism and Education, 2005-01-01 The papers in this book have emerged from a conference which was organized in

Zurich in 2003 by the Pestalozzianum Research Institute for the History of Education and the Educational Institute of the University of Zurich. The conference was organized in light of the increasing internationalization of educational discussion within the last ten to twenty years and the topic was the relation between pragmatism and educational theory. The contributions appear in a kind of chronological order. First James A. Good examines the repeatedly asserted Hegelian roots of Dewey's philosophy while Hans Peter Krüger, Meike Sophia Baader and Roswitha Lehmann Rommel address specific aspects of pragmatism such as public communication, religion and aesthetics with the main emphasis of the analysis on William James and John Dewey. Jane Addams and George Herbert Mead's education stands at the center of interest in the contributions by Daniel Tröhler, Birgit Althans, Gert Biesta and Jürgen Oelkers while Philipp Gonon and Stefan Bittner turn to the question of why pragmatism had such a hard time of gaining a foothold in Germany. The final contribution Philip W. Jackson's systematic analysis of Dewey's thought breaks with the chronological perspective of the volume shifting the focus to other central and fruitful issues.

Radical Interactionism on the Rise Lonnie Athens, Norman K. Denzin, 2013-10-28. This issue of the Blue Ribbon Papers is must reading for anyone wishing to remain up to date on the latest breaking developments in interactionism which could potentially change forever both the history of this venerated American school of thought and in turn American sociological theory.
