On Anthropological Knowledge Three Essays:

On Anthropological Knowledge Dan Sperber, 1985-06-30 What can be understood of other cultures And what can we learn about people in general from the study of other cultures In the three closely related essays that constitute this book and which have already created considerable controversy in their original French versions and been rewritten and expanded for this edition Dan Sperber discusses these fundamental issues of anthropology In the first essay he analyses the way in which anthropology is written and read In the second he offers a novel rationalist alternative to cultural relativism based on both anthropological and psychological arguments and illustrated by his own fieldwork in Ethiopia The third essay provides an assessment of the work of L vi Strauss in which the arguments of the previous two essays are linked with an incisive critique of L vi Strauss contribution to the study of cultural variation On Anthropological Knowledge d sperber, 1982 **A**

Cognitive Ethnography of Knowledge and Material Culture Mads Solberg, 2021-06-15 This cognitive ethnography examines how scientists create meaning about biological phenomena through experimental practices in the laboratory offering a frontline perspective on how new insights come to life An exercise in the anthropology of knowledge this story follows a community of biologists in Western Norway in their quest to build a novel experimental system for research on *Lepeoptheirus salmonis* a parasite that has become a major pest in salmon aquaculture The book offers a window on the making of this material culture of science and how biological phenomena and their representations are skillfully transformed and made meaningful within a rich cognitive ecology Conventional accounts of experiments see their purpose as mainly auxiliary as handmaidens to theory By looking closely at experimental activities and their materiality this book shows how experimentation contributes to knowledge production through a broader set of epistemic actions In drawing on a combination of approaches from anthropology and cognitive science it offers a unique contribution to the fields of cultural psychology psychological anthropology science and technology studies and the philosophy of science *Philosophy and Anthropology* Ananta Kumar Giri, John Clammer, 2013-12-15

Philosophy and anthropology have many but largely unexplored links and interrelationships Historically they have informed each other in subtle ways This volume of original essays explores and enhances this relationship through anthropological engagement with philosophy and vice versa the nature sources and history of philosophical anthropology phenomenology and the practical methodological and theoretical implications of a dialogue between the two subjects *Philosophy and Anthropology Border Crossings and Transformations* seeks to enrich both the humanities and the social sciences through its informative and stimulating essays **Common Worlds and Single**

Lives Verena Keck, 2020-08-20 In Pacific societies local knowledge which has been accumulated over thousands of years and is irreplaceable is rapidly disappearing With the extinction of languages the ability to observe and interpret the world from varying perspectives is also being lost At the same time an enormous body of knowledge about nature plants and animals is vanishing However in parallel with this the people of the Pacific are confronted with new modes of knowledge and newly

introduced technologies through imported educational systems missions of various denominations and the media They do not passively assimilate this knowledge but adopt adapt and apply it in a syncretistic way These changes will have permanent effects on the individual lives of people in the region and their knowledge about themselves and their surrounding world This stimulating book tracks the course of these developments and offers revealing insights into the complexity of Pacific peoples responses to the process of globalization
