On Being A Department Head A Personal View:

On Being a Department Head, a Personal View John B. Conway, 1996 For years higher education prospered It loudly proclaimed that college graduates command far greater lifetime incomes Ample funding followed We produced But that argument has begun to sour A college degree has long since stopped being a guarantee of prosperity or even job security Society has begun to question its support for universities In this environment mathematicians and all academics must begin to change compete and seek resources that will be used with greater care It is the only solution if we hope to maintain the integrity of the enterprise I want to offer advice to department heads out there I want to try to educate the rank and file about a variety of aspects of the job of being a department head I also want to tell you my opinion about this job and perhaps also a little about love death and the vagaries of the human condition from the Preface This unique book presents a witty well written personal view about the experience of being a department head Those in academia will profit from the author's inside view and other department heads and chairs new and old will benefit from the experiences of this keenly observant colleague

My Mathematical Universe: People, Personalities, And The Profession Krishnaswami Alladi, 2022-11-15 This is an autobiography and an exposition on the contributions and personalities of many of the leading researchers in mathematics and physics with whom Dr Krishna Alladi Professor of Mathematics at the University of Florida has had personal interaction with for over six decades Discussions of various aspects of the physics and mathematics academic professions are included Part I begins with the author's unusual and frequent introductions as a young boy to scientific luminaries like Nobel Laureates Niels Bohr Murray Gell Mann and Richard Feynman in the company of his father the scientist Alladi Ramakrishnan Also in Part I is an exciting account of how the author started his research investigations in number theory as an undergraduate and how contact and collaboration with the great Paul Erdős as a student influenced him in his career In depth views of the Institute for Advanced Study Princeton and several major American Universities are given and fascinating descriptions of the work and personalities of some Field Medalists and eminent mathematicians are provided Part II deals with the author's tenure at the University of Florida where he initiated several programs as Mathematics Chair for a decade and how he has served the profession in various capacities most notably as Chair of the SASTRA Ramanujan Prize Committee and Editor in Chief of The Ramanujan Journal The book would appeal to academicians and the general public since the author has blended academic and scientific discussions at a non technical level with descriptions of destinations in his international travels for work and pleasure The reader is invited to dig as deep as desired and is guaranteed to be treated to whimsical stories and personal peeks at some of the great luminaries of the twentieth and twenty first centuries
