Virginia Woolf Lorraine Sim, 2010 Placing Virginia Woolf's views in the context of the philosophical and lay accounts of everyday experience that dominated the cultural thought of her time. Sim draws on the major novels and on a number of shorter and less discussed texts, such as short stories, essays, memoirs, and diaries. Woolf. Sim contends explores the potential of everyday experience as a site of personal meaning, social understanding, and ethical value.

Timescapes of Waiting, 2019-08-26 *Timescapes of Waiting* explores the intersections of temporality and space by examining various manifestations of spatial immobility. The individual articles approach these spaces from a variety of academic perspectives, including the realms of history, architecture, law, and literary and cultural studies, in order to probe the fluid relationships between power, time, and space. The contributors offer discussion and analysis of waiting spaces like ante-chambers, prisons, hospitals, and refugee camps, and also of more elusive spaces such as communities and nation states. Contributors: Olaf Berwald, Elise Brault, Dreux Richard, Hardack, Kerstin Howaldt, Robin Kellermann, Amanda Lagji, Margaret Olin, Helmut Puff, Katrin Röder, Christoph Singer, Cornelia Wachter, Robert Wirth.

The Portrait of an Artist as a Pathographer: On Writing Illnesses and Illnesses in Writing Jayjit Sarkar, Jagannath Basu, 2021-05-09 Focusing on the various intersections between illness and literature across time and space, *The Portrait of an Artist as a Pathographer* seeks to understand how ontological, phenomenological, and epistemological experiences of illness have been dealt with and represented in literary writings and literary studies. In this volume, scholars from across the world have come together to understand how the pathological condition of being ill, the sufferers as well as the pathologists dealing with the ill, the healers and caregivers have shaped literary works. The language of medical science with its jargon and the language of the everyday with its emphasis on utility.

prove equally insufficient and futile in capturing the pain and suffering of illness. It is this insufficiency and futility that makes us turn towards the canonical works of Joseph Conrad, Samuel Beckett, William Carlos Williams, Virginia Woolf, Kazuo Ishiguro, Miroslav Holub, as well as the non canonical António Lobo Antunes, Yumemakura Baku, Wopko Jensma, and Vaslav Nijinsky. This volume helps in understanding and capturing the metalanguage of illness while presenting us with the tradition of writing pain. In an effort to expand the definition of pathography to include those who are on the other side of pain, the essays in this collection aim to portray the above mentioned pathographers as artists turning the anxiety and suffering of illness into an art form. Looking deeply into such creative aspects of illness, this book also seeks to evoke the possibility of pathography as world literature. This book will be of particular interest to undergraduate, postgraduate, and research students, as well as scholars of literature and medical humanities who are interested in the intersections between literary studies and medical science.

The Body Alone Nina Lohman, 2024-07-03. *The Body Alone* is an inquiry into the experience, meaning, and articulation of pain. It is a personal hybrid account incorporating research, scholarship, and memoir to examine chronic pain through the multi-lens of medicine, theology, and philosophy. Broken bodies tell broken stories. Nina Lohman's pain experience is portrayed through a cyclical narrative of primers, vocabulary lessons, prescription records, and hypothesized internal monologues, fractured not for the sake of experimentation but because the story itself demands it. In both form and content, *The Body Alone* represents boundary-pushing work that subverts the traditional narrative by putting pressure on the medical, cultural, and political systems that impact women's access to fair and equal healthcare. This is more than an illness narrative; it is a battle cry demanding change.

Reflections on a Simple Twist of Fate: Literature, Art, and Parkinson's Disease Dean Scaros, 2018-06-21. What happens when our lives are suddenly disrupted by chronic or terminal illness? Of course, science, family, faith, and friends are there to help. But as author Dean Scaros demonstrates in this elegantly written and affecting book, all the issues we face as a result of illness have been expressed through human artistic sensibility. We have been seeking meaning and solace and have often found it ever since we painted figures on the walls of our caves. This book considers these through the lens of great literature and art, issues that are important to us as we struggle to come to terms with progressive, debilitating illness. Issues such as personal dignity, courage, fear, hope, love, time, chance, fate, and friendship, to name just a few. These issues are not physical or clinical; rather, they concern the ways in which we think and feel about our experience. Reflecting on them affords us an opportunity to better understand our experience and even gain a measure of wisdom from it.
