Pittman,2012-03-08 G I Gurdjieff d 1949 remains an important if controversial figure in early 20th century Western Esoteric thought Born in the culturally diverse region of the Caucasus Gurdjieff traveled in Asia Africa and elsewhere in search of practical spiritual knowledge Though oftentimes allusive references to Sufi teachings and characters take a prominent position in Gurdjieff s work and writings Since his death a discourse on Gurdjieff and Sufism has developed through the contributions as well as critiques of his students and interlocutors J G Bennett began an experimental Fourth Way school in England in the 1970s which included the introduction of Sufi practices and teachings In America this discourse has further expanded through the collaboration and engagement of contemporary Sufi teachers This work does not simply demonstrate the influence of Gurdjieff and his ideas but approaches the specific discourse on and about Gurdjieff and Sufism in the context of contemporary religious and spiritual teachings particularly in the United States and highlights some of the adaptive boundary crossing and hybrid features that have led to the continuing influence of Sufism Orage's Commentary on Gurdjieff's Beelzebub's Tales to His Grandson Lawrence Morris,A. R. Orage,Sherman Manchester,2013-07 This title presents Orage s commentaries on Beelzebub s Tales to his Grandson which are an essential part of the Fourth Way literature They demonstrate a way of approaching and understanding a work that Orage considered to be literature of the highest kind *Masters Speak* Seymour B. Ginsburg,2014-04-01 If you want to pursue in a Western way the path that we follow here at Mirtola you need to study and work with the Gurdjieffian teaching Thus did the guru Madhava Ashish at their first meeting invite American businessman Sy Ginsburg on a spiritual journey that would last 19 years until the guru s death and include both annual visits to Sri Madhava Ashish s Mirtola ashram near Almora in India s Himalayan foothills and a lengthy correspondence Along the way the entrepreneur author would not only be caught up in the teachings of G I Gurdjieff but also in the search for the elusive unitive vision the world viewed from the perspective of the greater Self and not the personality In this remarkable spiritual document the reader shares the search increasingly catching glimpses of the unitive vision as the book draws toward a close that is also an opening out into the vaster dimensions of the human mind **Reich and Gurdjieff** David M. Brahinsky,2011-02-24 The main subject of this book is the relationship between sexual health and spiritual evolution Specifically the book focuses on Wilhelm Reich s discoveries regarding sexual health and George I Gurdjieff s concept of spiritual evolution The thesis is that spiritual evolution in Gurdjieff s sense is not possible apart from sexual health as Reich determined it Throughout the book Brahinsky presents an in depth discussion on Gurdjieff s conception of the evolution of consciousness sex Reich s discovery of the prime source biological life energy the fundamental laws of world creation and world maintenance the evolution and involution of consciousness the food of impressions and the crystallization of the higher being bodies and finally sexuality and evolution Students of Reich and Gurdjieff will acquire the knowledge they need through this edifying book For more information on Reich and Gurdjieff Sexuality and the Evolution of Consciousness interested parties may log on to [www Xlibris com](http://www.Xlibris.com) *Gurdjieff; Making a New World* John Godolphin

Bennett,1973 Gurdjieff, an Annotated Bibliography J. Walter Driscoll,Gurdjieff Foundation of California,1985 **The Gurdjieff Movements** Wim Van Dullemen,2018-06 Scores of books exist about the life and teachings of the Russian spiritual visionary G I Gurdjieff 1866 1949 yet few devote significant coverage to the Gurdjieff Movements These several hundred precise and mostly asymmetrical gestures arranged into detailed choreographies for groups of practitioners were designed by Gurdjieff himself This new book reconsiders the eminent role of the Movements revealing them as a vital yet often neglected component in the transmission of Gurdjieffs legacy Van Dullemen whose first Movements teacher received her instruction from Gurdjieff himself is in a unique position to offer background theory and first hand experience about this subject He is a professional musician and a long time practitioner of the Gurdjieff work who trained in these Movements and served as a master accompanist for the practice for over thirty years No book can teach the Movements the author clearly asserts And he makes no such attempt here Far from an instruction manual The Gurdjieff Movements A Communication of Ancient Wisdom offers invaluable insight into and greater understanding of the whys and wherefores of this fourth arm of the vast teaching that comprises Gurdjieffs complete communication his books his oral teachings his music and finally his Movements Along with fascinating stories of his own journey of discovery van Dullemen has skillfully integrated autobiographical descriptions of the master Gurdjieff interviews with direct pupils of Gurdjieff diligent research within a wide range of firsthand sources descriptions of the scientific cultural and social climate during Gurdjieffs time and the relationship between these and his teaching The book is also a rare accomplishment While highly authoritative it is nonetheless written in a direct style with clear language making it accessible to the public at large who may have interest but little background in this esoteric science and practice *Becoming Conscious with G.I.Gurdjieff* Solange Claustres,2021-02-20 *Becoming Conscious with G I Gurdjieff* Solange Claustres In principle all known Traditions are based on belief Gurdjieff s teaching is not a matter of belief but of having a discerning spirit with which to practise and experience what is taught in order to understand and to become conscious and responsible for oneself It is a teaching which includes work on the three main parts of the human being enabling a furtherment and deepening develop ment of the whole This teaching has always existed It surfaces in one form or another according to the demands and needs of time place and changing civilisations whenever humanity is out of balance and loses its reason and lucidity This teaching is neither a religion nor a philosophy It can help us to further our understanding of our own Tradition The essential is that it is practised in our current daily life just as it is without changing it The aim of this teaching is to become conscious it is transmitted orally and practically from teacher to pupil and also from elder to younger members within a group Solanges Claustres was close to Gurdjieff from 1941 until his death in 1949 She has more than 60 years experience of being involved in this teaching She led movements classes from the very beginning and she took part in numerous movements films She has led her own work groups on Gurdjieff s teaching in France She has directed movements classes and taken part in the guidance of work groups in England Holland and the U S A
