On Lynchings:

On Lynchings Ida B. Wells-Barnett, 2014-05-21 Three pamphlets by a civil rights pioneer chronicle some of the most regrettable incidents in American history. Wells's meticulous research and documentation of crimes from the 1890s offer priceless historical testimony. *On Lynchings* Ida B. Wells-Barnett, 2022-09-30 Though the end of the Civil War brought legal emancipation to African American people, it is a fact of history that their social oppression continued long after. The most virulent form of this ongoing persecution was the practice of lynching, carried out by mob rule often as local law enforcement officials looked the other way. During the 1880s and 1890s, more than 100 African Americans per year were lynched, and in 1892 alone, the toll of murdered men and women reached a peak of 161. In that awful year, the twenty-three-year-old Ida B. Wells, the editor of a small newspaper for blacks in Memphis, Tennessee, raised one lone voice of protest. In her paper, she charged that white businessmen had instigated three local lynchings against their black competitors. In retaliation for her outspoken courage, a goon squad of angry whites destroyed her editorial office and print shop, and she was forced to flee the South and move to New York City. So began a crusade against lynching, which became the focus of her long, active, and very courageous life. In New York, she began lecturing against the abhorrent vigilante practice and published her first pamphlet on the subject, called *Southern Horrors*. After moving to Chicago and marrying lawyer Ferdinand Barnett, she continued her campaign, publishing *A Red Record* in 1895 and *Mob Rule* in New Orleans about the race riots in that city in 1900. All three of these documents are here collected in this work, a shocking testament to cruelty and the dark American legacy of racial prejudice. Anticipating possible accusations of distortion, Wells Barnett was careful to present factually accurate evidence and she deliberately relied on southern white sources as well as statistics gathered by the *Chicago Tribune*. Using the words of white journalists, she created a damning indictment of unpunished crimes that was difficult to dispute, since southern white men who had witnessed the appalling incidents had written the descriptions. Along with her husband, she played an active role in the founding of the National Association for the Advancement of Colored People (NAACP). Due to her efforts, the NAACP launched an intensive campaign against lynching after World War I. Her work remains important to this day not only as a cry of protest against injustice but also as valuable historical documentation of terrible crimes that must never be forgotten. This edition is enhanced by an introduction by Patricia Hill Collins, an American academic specialising in race, class, and gender. She is a Distinguished University Professor of Sociology at the University of Maryland, College Park. She is also the former head of the Department of African American Studies at the University of Cincinnati and a past President of the American Sociological Association. *On Lynchings* Ida B. [On Lynchings](#) The Many Faces of Judge Lynch C. Waldrep, 2002-11-08. The U.S. is the most violent industrialized country in the world, and lynching, that is murder endorsed by the community, may be a key to understanding America's heritage of

violence and perhaps point to solutions that can eradicate it While lynchings are predominantly racial in tone and motive Christopher Waldrep s sweeping study of the meaning and uses of lynching from the colonial period to the present reveals that the definition of the term has shifted dramatically over time and that the victims and perpetrators of lynching were as diverse as its many meanings By examining lynching from a comparative and temporal perspective Waldrep teaches us important lessons not only about racial violence in America but about the ways in which communities define and justify crime and the punishment of its criminals

Paliewicz,2020-12-28 In December 2018 the United States Senate unanimously passed the nation s first antilynching act the Justice for Victims of Lynching Act For the first time in US history legislators representing the American people classified lynching as a federal hate crime While lynching histories and memories have received attention among communication scholars and some interdisciplinary studies of traditional civil rights memorials exist contemporary studies often fail to examine the politicized nature of the spaces This volume represents the first investigation of the National Memorial for Peace and Justice and the Legacy Museum both of which strategically make clear the various links between America s history of racial terror and contemporary mass

In early twentieth century motion picture houses offensive stereotypes of African Americans were as predictable as they were

prevalent Watermelon eating chicken thievery savages with uncontrollable appetites Sambo and Zip Coon were all

representations associated with African American people Most of these caricatures were rendered by whites in blackface

Few people realize that from 1915 through 1929 a number of African American film directors worked diligently to counter

such racist definitions of black manhood found in films like D W Griffith s The Birth of a Nation the 1915 epic that glorified

the Ku Klux Klan In the wake of the film s phenomenal success African American filmmakers sought to defend and redefine

black manhood through motion pictures Gerald Butters's comprehensive study of the African American cinematic vision in silent film concentrates on works largely ignored by most contemporary film scholars African American produced and directed films and white independent productions of all black features. Using these race movies to explore the construction of masculine identity and the use of race in popular culture he separates cinematic myth from historical reality the myth of the Euro American controlled cinematic portrayal of black men versus the actual black male experience. Through intense archival research Butters reconstructs many lost films expanding the discussion of race and representation beyond the debate about good and bad imagery to explore the construction of masculine identity and the use of race as device in the context of Western popular culture. He particularly examines the filmmaking of Oscar Micheaux the most prolific and controversial of all African American silent film directors and creator of the recently rediscovered *Within Our Gates* the legendary film that exposed a virtual litany of white abuses toward blacks. *Black Manhood on the Silent Screen* is unique in that it takes contemporary and original film theory applies it to the distinctive body of African American independent films in the silent era and relates the meaning of these films to larger political social and intellectual events in American society. By showing how both white and black men have defined their own sense of manhood through cinema it examines the intersection of race and gender in the movies and offers a deft interweaving of film theory American history and film history.
