Henderson Stewart, 1994-12-15 What is honor Is it the same as reputation Or is it rather a sentiment Is it a character trait like integrity Or is it simply a concept too vague or incoherent to be fully analyzed In the first sustained comparative analysis of this elusive notion Frank Stewart writes that none of these ideas is correct Drawing on information about Western ideas of honor from sources as diverse as medieval Arthurian romances Spanish dramas of the sixteenth and seventeenth centuries and the writings of German jurists of the nineteenth and twentieth centuries and comparing the European ideas with the ideas of a non Western society the Bedouin Stewart argues that honor must be understood as a right basically a right to respect He shows that by understanding honor this way we can resolve some of the paradoxes that have long troubled scholars and can make sense of certain institutions for instance the medieval European pledge of honor that have not hitherto been properly understood Offering a powerful new way to understand this complex notion Honor has important implications not only for the social sciences but also for the whole history of European sensibility **On My Honor** Marion
