**Social Trauma, Narrative Memory, and Recovery in Japanese Literature and Film** David Stahl,2019-07-02 This book provides a comprehensive analysis of major works in Japanese literature and film through the interpretive lens of trauma and PTSD studies Focusing critical attention on the psychodynamics and enduring psychosocial aftereffects of social trauma it also evaluates the themes of dissociation failed mourning and psychological defence fantasies Building on earlier studies this book emphasizes the role of protagonists in managing to effect partial recovery by composing memoirs in which they transform dissociated traumatic memory into articulate narrative memory or bring about advanced recovery by pioneering alternative means of orally communicating working through and overcoming debilitating personal histories of traumatization and victimization In so doing Stahl also demonstrates that what holds true on the individual and microcosmic level also does so on the collective and macrocosmic level This new critical approach sheds important new light on canonical Japanese novels and films and enables recognition and appreciation of integral psychosocial aspects of these traumatic narratives As such the book will be of huge interest to students and scholars of Japanese film and literature as well as those of trauma studies

**Re-Authoring Life Narratives After Trauma: A Holistic Narrative Model of Care** Charles B. Manda,2019-12-12 Re authoring Life Narratives after Trauma is an interdisciplinary specialist resource for traumatic stress researchers practitioners and frontline workers who focus their research and work on communities from diverse religious backgrounds that are confronted with trauma death illness and other existential crises This book aims to argue that the biopsychosocial approach is limited in scope when it comes to reaching a holistic model of assessing and treating individuals and communities that are exposed to trauma The holistic model must integrate an understanding of and respect for the many forms of religion and spirituality that clients might have Pargament 2011 It will not only bring a spiritual perspective into the psychotherapeutic dialogue but it will also assist in dealing with the different demands in pastoral ministry as related to clinical and post traumatic settings The book makes several contributions to scholarship in the disciplines of although not limited to traumatic stress studies pastoral care and counselling psychology and psychiatry Firstly the book brings spirituality into the psychotherapeutic dialogue traditionally religious and spiritual topics have not been a welcome part of the psychotherapeutic dialogue Secondly it underscores the significance of documenting literary narratives as a means of healing trauma writing about our traumas enables us to express things that cannot be conveyed in words and to bring to light what has been suppressed and imagine new possibilities of living meaningfully in a changed world Thirdly it proposes an extension to the five stage model of trauma and recovery coined by Judith Herman **Positive Psychiatry, Psychotherapy and Psychology** Erick Messias,Hamid Peseschkian,2025-10-16 This book offers a holistic integrative resource oriented and preventive perspective on psychotherapy psychiatry and psychology There is great urgency in developing resources and

potential in our patients not only in freeing them from their disorders Pandemics wars international terrorism climate catastrophes escalating nationalism in numerous countries economic crises a pervasive distrust of governments institutions and even fellow citizens along with a surge in addictive behavior towards social media just to name a few major factors have contributed to a notable increase in mental disorders the prescription of psychotropic drugs suicidality loneliness and depression The fully revised and expanded second edition brings together 76 authors from 19 countries and 5 continents who collectively share their experiences in the clinical application of positive mental health across more than 55 chapters Twenty two new chapters have been added addressing emerging topics and contemporary issues These include insights into practicing psychotherapy in Ukraine and Ethiopia countries deeply affected by wars multiple chapters dedicated to trauma the Chinese perspective on navigating the Covid 19 pandemic and its effects understanding the LGBTQ community the experience of online therapy since the outbreak of the Covid 19 pandemic and exploration of disorders such as autism chronic pain death and grieving and suicide All authors are practicing psychotherapists in their respective countries providing firsthand accounts from their daily experiences Additionally all 34 chapters from the first edition have been thoroughly updated to ensure the content remains current and relevant It remains the only international textbook which brings together positive psychiatry positive psychotherapy and positive psychology Positive Psychiatry Psychotherapy and Psychology Clinical Applications for Positive Mental Health will be of interest to psychiatrists psychotherapists psychologists social workers and other mental health professionals It may be used in educating a new generation of mental health professionals in these tenets that are expanding the reach of psychology the practice of psychotherapy and the scope of psychiatry

Trauma: Curative Concepts Nic Saluppo, 2020-02-03 Trauma Until recently we as a society have thought of trauma as primarily psychological or in a person's head. Recent advances in research about trauma have brought to light a few surprising truths. This booklet is useful for anybody who wants to learn powerful concepts about trauma without reading long dissertations or 300 page books. It has been written in a short and easy to read fashion. Vital information is provided for you without the clinical or scientific jargon. In this booklet you'll discover Why a person can't think their way out of trauma. The body's built in trauma healing mechanism. Why one specific form of trauma often goes unrecognized by the person experiencing it. And more. You can take the information in this booklet and apply it for yourself to heal your own trauma, use it to better understand a family member or friend, or use it to spread awareness in groups and organizations. It's useful for teachers, medics, and EMTs, and police. It's also useful for clinicians and doctors to pass along to clients and patients who bulk at reading longer books; this will provide them with exactly what they need to know. It's useful to pass along to someone whose child, spouse, other family member, or friend is dealing with trauma. It's an easy reading book for all walks of life and has been written to be engaging even to those who generally aren't into self help or psychology materials. If individuals, families, and groups become aware of these eye-opening concepts, the people of our nation would make great strides in healing. Additional resources are provided within the book for those who wish to learn more.

**Cincinnati Medical Advance**, 1908 **A Bronze Age Landscape in the Russian Steppes** David W. Anthony, Dorcas R. Brown, Aleksandr A. Khokhlov, Pavel F. Kuznetsov, Oleg D. Mochalov, 2016-12-31 The first English language monograph that describes seasonal and permanent Late Bronze Age settlements in the Russian steppes. This is the final report of the Samara Valley Project, a US-Russian archaeological investigation conducted between 1995 and 2002. It explores the changing organization and subsistence resources of pastoral steppe economies from the Eneolithic (4500 BC) through the Late Bronze Age (1900-1200 BC) across a steppe and river valley landscape in the middle Volga region, with particular attention to the role of agriculture during the unusual episode of sedentary settled pastoralism that spread across the Eurasian steppes with the Srubnaya and Andronovo cultures (1900-1200 BC). Three astonishing discoveries were made by the SVP archaeologists: agriculture played no role in the LBA diet across the

region a surprise given the settled residential pattern a unique winter ritual was practiced at Krasnosamarskoe involving dog and wolf sacrifices possibly related to male initiation ceremonies and overlapping spheres of obligation cooperation and affiliation operated at different scales to integrate groups defined by politics economics and ritual behaviors
