plant's life fuller. While it is known that water is essential to a plant's growth, did you know that too much of a good thing can kill your plant? This chapter explains different aspects of how water affects your plant, from the water in the soil to the water in the air around it. To Feed or Not to Feed: Many times, fertilizer used just because. While this helps plants that would otherwise be lacking, it can kill plants that have their needs currently met. This chapter shows what ingredients are in standard fertilizers, some signs of malnutrition in your plant, and how to counter these effects.
