Khurana, 2009      Strategic Management of Technology and Innovation Robert A. Burgelman, Modesto A. Maidique, Steven C. Wheelwright, 2001 This text has been written for a course in technology and innovation It covers contemporary research by using a combination of text readings and cases Based on reviewer response to a survey the authors have updated many of the cases that instructors found outdated or lacking Classic cases such as Claire McCloud have been kept while newer cases such as Intel Corporation in 1999 have been added There is also a strong set of readings from sources such as Harvard Business Review California Management Review and Sloan Management Review      Strategic Management of Technology and Innovation Robert A. Burgelman, Clayton Christensen, Steven C.

Wheelwright, 2004 The 4th Edition of Strategic Management of Technology and Innovation by Burgelman Christensen and Wheelwright continues its unmatched tradition of market leadership by using a combination of text readings and cases to bring to life the latest business research on these critical business challenges New co author Clay Christensen provides his insights on innovation management and new market entries through several new cases Approximately 40% of the cases are entirely new to this edition Strategic Management of Technology and Innovation takes the perspective of the general manager at the product line business unit and corporate levels The book not only examines each of these levels in some detail but also addresses the interaction between the different levels of general management for example the fit between product strategy and business unit strategy and the link between business and corporate level technology strategy Each part of the book starts with an introductory chapter laying out an overall framework and offering a brief discussion of key tools and findings from existing literature The remainder of each part offers a selected handful of seminar readings and case studies Almost all of the cases deal with recent events and situations including several that are concerned with the impact of the Internet A few classics have been retained however because they capture a timeless issue or problem in such a definitive way that the historical date of their writing is irrelevant *From Followers to Leaders* Naushad Forbes, David Wield, 2002 This book centres on the ways in which ordinary firms can improve technology management It argues that succeeding as a follower firm requires learning from many experiences and avoiding simplistic how to approaches *Managing Technological Innovation* Frederick Betz, 2003-07-03 Technology management as a field came together during the 1980s in response to the question of how society could deliberately create new technology and exploit it in economic development This updated edition introduces technology management covers the importance of managing information technologies and compares them to existing physical technologies Managing Technology Entrepreneurship and Innovation Paul Trott, Dap Hartmann, Patrick van der Duin, Victor Scholten, J. Roland Ortt, 2016 Managing Technology Entrepreneurship and Innovation is the first textbook for non business based entrepreneurship courses focussed on students with a background in science and technology Its comprehensive rigorous and yet accessible approach originates from the authors considerable experience mentoring students as they turn their technological ideas into real life business ventures The text is separated into three parts providing a roadmap for successful entrepreneurial projects Part I focusses on how to create your venture turning technology into businesses and how to link together entrepreneurship and innovation Part II shows you how to grow your venture and make it profitable looking at the early development of academic spin outs and how to adapt your technology to the customers needs Part III takes you through the day to day running on your business whether to adopt a contingency or contextual approach how to develop new products and services and alternative options for growth With a wide range of practical steps lists of things to consider and guidelines on how to turn your technology based ideas into a successful business this text will be essential for all non business students who need to understand entrepreneurship management and

innovation It will also prove a useful introduction to all Masters level students taking these subjects in business schools
