Managing Technology In Society:

Managing Technology in Society Arie Rip, Thomas J. Misa, J. W. Schot, 1995 A fateful conceptual gap separates the policy makers and managers charged with promoting technology and the risk and technology assessors responsible for controlling it This hampers the effective use of many new technologies and prevents the development of others The strategy of constructive technology assessment CTA addresses this gap through facilitating societal learning processes and proposing a shared responsibility for the promotion and control of new technologies Combining analysis of both cases and concepts **Managing Technology in Society** confronts the underdevelopment of innovative potential for achieving goals of wealth sustainability and safety Factors that block change as well as conditions for successful learning are identified in a wide ranging selection of cases that encompass biotechnology clean technologies information and medical technologies The contributors build on the convergence of recent theories on technical change within economics sociology and the history of technology to offer suggestions for CTA action and so create a new paradigm of managing technology in society BOOK JACKET Title Summary field provided by Blackwell North America Inc All Rights Reserved Futures of Science and Technology in Society Arie Rip, 2018-06-06 Longer term developments shape the present and endogenous futures of institutions and practices of science and technology in society and their governance Understanding the patterns allows diagnosis and soft intervention often linked to scenario exercises The book collects six articles offering key examples of this perspective addressing ongoing issues in the governance of science and technology including nanotechnology and responsible research and innovation And adds two more articles that address background philosophical issues **Vision Assessment: Shaping Technology in 21st Century Society** John Grin, Armin Grunwald, 2012-12-06 One way to shape technology and its embedding in society in the 21st century is through the visions that guide their development especially concerning the long term societal perspective A critical discussion and assessment of these visions is a prerequisite for influencing the course of development Technology assessment therefore has to provide a methodological repertoire for assessing and constructing visions taking into account the requirements for long term orientation as well as the need for public legitimation This volume draws upon insights from technology assessment political sciences epistemology sociology and ethics It is to contribute to the recent literature in on shaping technology taking into account the co evolution of technology and society It connects to that technology assessment literature that emphasises TA s pro active role and its contribution to political judgement **Decisions, Technology and Organization** Audley Genus, 2017-11-22 This title was first published in 2000 This text analyzes the problems of managing large scale technology projects It addresses the contrast between projects hoped for benefits and the optimism with which they are promoted and the high human economic or environmental costs of their operation The book is multi disciplinary in its approach and an integration of different levels of analysis It contains case studies that are analyzed in terms of the literatures on decision theory public administration and

strategic and project management **Technology, Society and Sustainability** Lech W. Zacher, 2017-03-02 This collection is a multidisciplinary and multicultural contribution to the current sustainability discourse It is focused on two main dimensions of our world complexity and diversity Desirable and urgent transition of socio technological systems toward a sustainability trajectory of development requires a better understanding of technological trends and social transformations General advancement of technology does not produce identical changes in various societies differentiated economically and culturally Moreover the abilities to approach sustainable development change over time and space As a result there is a constant need for continuing research analyses and discussions concerning changing contexts and adequacy of strategies and policies Authors from twelve countries and of different academic and cultural settings present their insights analyses and recommendations The collection is focused both on contexts and on activities leading to sustainable trajectories in various domains of economy and social life Continuing research and discussion is needed to better understand these challenges and to prepare the appropriate strategies and solutions Development of socio technological systems is nowadays very complex moreover the world we live in is extremely diverse Therefore sustainability discourse must be ongoing introducing new ideas concepts theories evidence and experience by various parties academics professionals and practitioners **Managing Technology and Innovation** Robert Marcel Verburg, J. Roland Ortt, Wilhelmina Margaretha Dicke, 2005 Focusing on understanding technology as a corporate resource this book covers product development design of systems and the managerial aspects of new and high technology It investigates topics such as the internal organization of high technology firms the management of technology in society managing innovation and dilemmas and strategies Technology Assessment in Practice and Theory Armin Grunwald, 2018-11-08 Technological advance affects almost all areas of human life Rapid digitization increased mobility new biotechnologies and nanotechnology deeply influence amongst others industrial production entertainment work military affairs and individual life Besides overwhelmingly positive effects on wealth comfort innovation and development this also raises questions of unintended effects of tensions with democracy of the role of citizens and of its sustainability facing environmental issues Tools and procedures are needed to cope with this challenging situation Technology assessment TA has been developed more than fifty years ago to enable science the economy and society to harvest the potential of new technology to the maximum extent possible and to deal responsibly with possible adverse effects It was developed more than 50 years ago in the U S Congress and has diversified considerably in the meantime Parliamentary TA in many European states and at the international level participatory TA at the local and regional levels worldwide and TA as part of engineering processes are the most relevant fields today Technology assessment is a growing field of interdisciplinary research and scientific policy advice This volume a gives an overview of motivations of TA its history and its current practices b develops a fresh theoretical perspective on TA rooted in social theory and philosophy and c draws conclusions from the theoretical perspective for the further development of TA s practices It provides the first comprehensive

view on the growing field of TA at the international level **Innovation in an Advanced Consumer Society** Peder Inge Furseth, Richard Cuthbertson, 2016-02-12 This book aims to develop innovation theory by focusing on innovation in a consumer society In an advanced consumer society services dominate and are provided through digital as well as physical channels by local national and global firms This book aims to identify the ways in which value can be increased for all stakeholders through both incremental and disruptive innovation When interacting with leading businesses there is a common acceptance that we need a better understanding of how to innovate in a service economy Today most advanced economies are service and knowledge based accounting for about 70 percent of GDP OECD reports document a considerable knowledge gap related to service innovation It is a challenge for both business and society that future economic growth will increasingly be based on services rather than manufacturing and products Failing to understand innovation issues in this context as an engine for growth is somewhat alarming This raises the question do we know how to innovate successfully in a consumer driven society In this book the authors develop the concept of Value Driven Service Innovation alongside a methodology for applying this approach in practice the Service Innovation Triangle They develop a better understanding of innovation based on the uniqueness of services in order to develop the theory of service innovation suitable for a consumer society **Journal of the Society of Glass Technology** Society of Glass Technology, 1921 Journal of the Society of Glass Technology Society of glass technology, Sheffield, Eng, 1919 Technology, Management, and Society Peter Ferdinand Drucker, 2011 Packed with probing questions stories and examples and delivered in Drucker's inimitable style this book is a must read for all managers seeking to benefit from this great thinker's wisdom in a time when our own technology is shifting so very rapidly Book Jacket **Technology and Culture** , 1997 *Managing Information Technology in a Global Society* Information Resources Management Association. International Conference, 1991 **Strategic Leadership in High Technology Management** , 1990 **The Technology Quarterly and Proceedings of the Society of Arts** , 1899 Technology Quarterly and Proceedings of the Society of Arts , 1904 Vol 8 14 include Review of American chemical research edited by Arthur A Noyes **Technology and Society** Linda S. Hjorth, 2003 For undergraduate graduate level courses in Technology and Society Ethics and Technology Sociological and Technological Issues Technology in a Social World Social Issues in Technology Sociological Cultural and Technological Concerns This anthology of scholarly and popular articles explores the positive negative ethical and unethical issues faced by society as technology changes the world that we live in on a personal national and international level Unique in its depth breadth and variety of opinions and writings it examines specific examples from the past and present and hypothesized ones for the future showing the complexity that makes solutions not so simple A variety of interactive activities encourages students to think critically analytically and creatively and challenges them to develop new ideas and to map out solutions to today's technological and sociological problems *Candidates and Priorities for Technology Assessments* , 1973 *Impact of Information Technology on Society*

,1998 Management of Technology Hans J. Thamhain,2013-10-11 Presents assessment methods for organization and management processes Provides special tools and techniques for managing and organizing R D new product and project oriented challenges Includes real world case studies
