Managing The Modern City:

Managing the Modern City James M. Banovetz, 1971 *Managing the Modern City* Institute for Training in Municipal Administration, 1958 *Managing the Modern City* James M. Banovetz, 1971-01-01 Public Administration and Law Julia Beckett, Heidi O. Koenig, 2015-02-12 Public Administration and Law has been edited for use as a supplement for an undergraduate or MPA level course on administrative law The selections all from the pages of Public Administration Review have been chosen to enlighten and enliven the contents of any standard administrative law textbook Each of the book's main sections begins with introductory text and discussion questions by the volume editors Julia Beckett and Heidi Koenig followed by relevant readings from PAR The book's contents follow the standard pattern established by the field's major textbooks to facilitate the instructor's ability to assign readings that illuminate lectures and text material The book concludes with two invaluable resources a bibliography of 65 years of PAR articles concerning public law plus a bibliography of law related articles appearing in other journals published by ASPA **Municipal Services and Employees in the Modern City** Mr Pierre-Yves Saunier, Ms Irene Maver, Professor Michèle Dagenais, 2013-06-28 Municipal Services and Employees in the Modern City considers the roles played by local institutions and particular processes that shaped the urban fabric It rediscovers from models and maps the constituent dynamics of cities since the beginning of the nineteenth century and demonstrates how patterns evolved in the way services and locations were organized how urban transformation was underpinned by structural development and how the municipal workforce became an integral part of the agencies of change Municipal Services and Employees in the Modern City suggests that municipal experiences are central to the development of urban studies Its focus of analysis ranges across Europe and the Americas from high ranking bureaucrats to firefighters engineers to accountants and town clerks to public servants Each essay provides detailed information on how change was formulated or resisted within the administrative apparatus offering insight into a sector of the white collar class and the degree of commitment to public values often at times of social and political upheaval They explore the course of relationships between local and central government and the shifting bounds of municipal interventionism over a broad period whilst incorporating a social history approach to interpret the day to day responsibilities and routine of administration
