## **Managing Police Work Issues Analysis:**

Managing Criminal Justice Organizations Richard R.E. Kania, Richards P. Davis, 2014-09-19 This book studies the formal and informal nature of the organizations involved in criminal justice. It will acquaint readers with the historical developments and application of managerial theories principles and problems of managing criminal justice organizations. Covers management positions in criminal justice historical antecedents decisionmaking and planning staffing and personnel training and education

Managing Police Work Jack R. Greene, 1982-02 Seven articles explore defining and measuring the police role human resources planning professionalism internal communications and police citizen interactions. A model for assessing police crime control effectiveness emphasizes organizational and environmental factors affecting crime prevention goals. Urban police agencies should consider adopting a social planning perspective measuring effectiveness by how well police serve the actual users of their services rather than the abstract public. An analysis of police personnel planning finds that external factors e.g. labor supply economic trends affecting data collection should be incorporated into any planning effort. An examination of professionalism concludes that police meet few of the criteria for professional standing and that it would be dangerous to award police professional privileges such as confidentiality. A discussion of citizen complaints against urban police suggests that minorities particularly blacks assessments of police performance are negatively affected by police practices. Analyses based on the Managerial Grid and Johari Window measures help synthesize current thinking about police managers leadership and communication styles. Examining internal communications from the perspective of the individual officer researchers find a moderate to weak association between officers assessments of communications and job satisfaction. These findings are consistent with ethnographic interpretations and cast doubt on administrative assumptions derived from organizational and motivation theory. The articles include references and study data

**Leadership and Management in Police Organizations** Matthew J. Giblin, 2016-09-16 Addresses the different management styles that are applicable to large as well as small police agencies. Dr Michael Wigginton Jr University of Mississippi Built on a foundation of nearly 1 200 references. Leadership and Management in Police Organizations is a highly readable text that shows how organizational theory and behavior can be applied to improve the operations leadership and management of law enforcement. Author Matthew J Giblin emphasizes leadership and management as separate skills in successful police supervisors and executives illustrating to students how the two skills combine to improve individual and organizational efficacy in policing. Readers will come away with a stronger understanding of why organizational decisions matter and the impact research can have on police departments
