**The Handbook of Journalism** Nathaniel Clark Fowler, 1913      **Understanding Contemporary Journalism** Tatah Mentan, 2022-01-03 Journalism is one of the most important professions today Without it large swaths of the world similarly might have remained dark impoverished tortured because few people would have been aware of the nature and depth of the atrocities therein You can't fix what you can't find Indeed we have only to look at places today where journalists must risk their lives to do their jobs places such as Central Europe the Philippines Mexico Myanmar Russia Turkey Democratic Republic of Congo Rwanda Cameroun Afghanistan and too many others to appreciate anew what an incalculable difference the media make reporting on wars famines genocide and the tyrants who green light them But saving the world apparently is not enough I have included a chapter on Peace Journalism because it uses conflict analysis and transformation to update the concept of balance fairness and accuracy in reporting This approach provides a new road map tracing the connections between journalists their sources the stories they cover and the consequences of their reporting the ethics of journalistic intervention to play a role in global peace rather than fuelling conflicts      Letters to a Young Journalist Samuel G. Freedman, 2006-03-28 From one of America's most respected journalists and a revered professor at Columbia University's School of Journalism comes a lively and inspiring look at the art and craft of journalism      **Heat and Light** Mike Wallace, Beth Knobel, 2010-07-13 In Heat Light a legendary journalist and a journalism professor join forces to offer a one of a kind guide for our next generation of great journalists Drawing on the authors decades of experience at the top of the field and inspired directly by beginners most frequently asked questions Heat Light offers invaluable advice on such topics as balancing drama and information heat vs light generating and evaluating story ideas the secrets to crafting good ledes creating strong packages for the internet tv and radio the specific requirements of writing for print and broadcast the art of the interview Along the way the authors share countless anecdotes from their own storied careers and discuss larger questions such as the rapidly growing role of digital media and what it means for today's aspiring journalists Includes an extensive reporter's toolbox of checklists techniques and resources      **The Beholder's Eye** Walt Harrington, 2005 Great journalists at one time or another have all been characters in their own stories people with personalities that shaped what they saw and reported and were touched and changed by the experiences about which they wrote and innovators who borrowed the storytelling techniques of fiction The Beholder's Eye showcases the very best of an increasing trend toward personal narrative Mike Sager stalking Marlon Brando in the Tahitian jungles J R Moehringer's quest to discover the true identity of an old boxer Bill Plaschke's story about a woman with cerebral palsy who runs an obscure Los Angeles Dodgers Web site Scott Anderson's story of his lifetime of covering war after war Harrington's own tale of his interracial family's struggle to persevere and many others Written by reporters who were willing to reveal themselves in order to bring readers insights that were deeper than supposedly objective third person stories their articles are an invaluable resource for aspiring
