Mandevilles Medieval Audiences:

Mandeville's Medieval Audiences Rosemary Tzanaki, 2017-07-05 The so called travels of Sir John Mandeville to the Holy Land India and Cathay were immensely popular throughout Europe during the late medieval period and were translated into nine different languages. This is a detailed study of the audiences of Mandeville's Book with particular emphasis on its reception in England and France from the time the Book appeared in the 1350s to the mid 16th century. The multiple ways in which audiences interpreted the work depending on wider social and cultural contexts are analysed thematically under the headings of pilgrimage, geography, romance, history and theology and contrasted with what can be learned of the author's intentions. The book is well illustrated with images taken from both manuscript and early printed editions in her study of these and the marginal notes. Rosemary Tzanaki shows their importance for seeing what readers found of interest. Her analysis makes a significant contribution to our understanding of how people in medieval Europe perceived the outside world.

Mandeville's Medieval Audiences Rosemary Tzanaki, 2003 Mandeville's description of his fictitious travels to the Holy Land India and Cathay was generally well accepted throughout Europe and was translated into many languages.

Mandeville's Travails Francis Tobienne Jr., 2016-06-20 This book offers a critical methodology for analyzing travel literature. The subject of travel literature as well as travel literatures have not always been regarded with respect or given much critical attention. In order to amend this lack of positive reception, Francis Tobienne Jr. analyzes the late medieval text *Mandeville's Travails* specifically the Cotton MS. This text, though not overly popular currently, was among the most popular pieces of literature for well beyond its fourteenth century inception in some three hundred manuscripts divided into three groups as well as early printed editions. Further, this text offers a way in which to approach other pieces of travel literature. To facilitate this critical process, Tobienne proposes a seven part method: 1. Identify and Define the Problem; 2. Make Observations; 3. Look for Regularities; 4. Wonder Why Regularities Exist; 5. Propose a Hypothesis; 6. Use an Experiment; and 7. Have Reproducible Results. Of note, *Mandeville's Travails* is both the impetus behind this seven part method as well as the object of study. Thus, Tobienne showcases how each element of the seven part method is at play in the text even as he argues for the text's importance within medieval studies. Also included in this examination is the application of this seven part method to medieval and post-period pieces of literature. The book culminates in an argument for the canonization and importance of *Mandeville's Travails* in and beyond medieval studies.

Mythologies of the Prophet Muhammad in Early Modern English Culture Matthew Dimmock, 2013-05-31 This book explores how the figure of the Prophet Muhammad was misrepresented in English and wider Christian culture between 1480 and 1735. By tracing the ways in which Mahomet was written and rewritten, contested and celebrated, this study explores notions of identity and religion and the resonances of this history today.
