Mani His Life And His Work Transforming Evil:

Mani Richard Seddon,2012-03-09 Mani the founder of the spiritual movement that has come to be called Manichaeism established an influential teaching that spread swiftly across Asia Africa and parts of Europe but was later brutally suppressed Little was known about this Gnostic religion until archaeological findings in the twentieth century revealed important aspects of Mani s biography and philosophical thought Many years before those physical discoveries Rudolf Steiner provided key esoteric insights based on his personal spiritual scientific research into Mani s life and work Richard Seddon assembles pieces of the academic and esoteric puzzle offering a lively and colorful picture of Mani and Manichaeism He gives a succinct outline of Mani s life the fundamental aspects of his teachings and a description of the future spiritual role of Manichaeism Seddon creates an image of a great Christian initiate leading a movement with the critical task of transforming and ultimately redeeming evil

Mani & Rudolf Steiner Christine Gruwez,2014-08-26 For many centuries the teaching of Mani was hidden behind the distorted picture that had been created by the adversaries of Manichaeism in East and West In the course of the twentieth century new light was shed on Manichaeism by the discovery of several Manichaean scriptures These have shown that Manichaeism was a true distinct world religion that in the question of good and evil for instance offers insights that complement and deepen Christianity Also in the twentieth century Rudolf Steiner brought Anthro posophy Spiritual Science which is a continuation of a stream of esoteric Christianity that has run through human history ever since the resurrection of Christ Anthroposophy is centered on a new deepened idea of Christianity that as indicated by Rudolf Steiner is so great and all encompassing that it can be understood in its full depth only gradually In this book Christine Gruwez explores the essence of Mani s revelation and then shows what Rudolf Steiner has communicated regarding Mani and his teaching This generates an image of two spiritual streams that each from its own beginning are moving toward a future when a Christianity of the deed shall become reality

[The Venus Eclipse of the Sun 2012](#) David Tresemer,2011-12 On the one hand New Testament scholarship has been preoccupied with a search for the historical Jesus On the other twists and turns occurring after the first century brought about an enforced orthodoxy that views modern visionaries as heretics The inconclusive nature of theology pits those who are reluctant to support the miraculous against the witness of the original oral tradition One result of the confusion over the New Testament record is that contemporary fiction such as The Da Vinci Code has emerged to fill the void It has been so popular because there is hunger for a better understanding of those events The author of this book aims to fill the gap Drawing on the visionary reports of Anne Catherine Emmerich 1774 1824 and Judith von Halle b 1973 as well as the spiritual research of Rudolf Steiner and Robert Powell Charles Tidball traces the events of two thousand years ago in Palistine including scenes in the life of John the Baptizer Jesus forty days in the wilderness healings the Transfiguration the raising of Lazarus the Passion Resurrection and Ascension of Christ and much more The author s purpose is to present these relatively unknown facets of the life of Jesus Christ as stories

so they can achieve the broader recognition they deserve The result is that this book breathes new life and meaning into familiar stories offering the reader a fresh beginning in understanding the profound wisdom contained in the New Testament

Love and Its Meaning in the World Rudolf Steiner, 1998 Although Steiner did not often speak or write about love explicitly love is at the very heart of his whole body of work and the foundation of his hopes for humankind and the Earth Steiner teaches that without love nothing is possible with love however we can do everything Love is always love of the not yet To love is to create it is to selflessly enter the current of time that flows toward us from the future Reality true knowledge of reality is impossible without love Only through love can we truly know as we are know can we encounter the world and its beings in a living way Without love knowledge becomes manipulation domination control the world becomes a space of dead things But when we know through love we enter into a pattern of dynamic potentially redemptive relations and the world becomes a living world of beings working for the good This collection gathers all of Rudolf Steiner's main lectures and writings related to love From earthly love to the nature and function of spiritual love these pieces are essential reading for anyone concerned with the future of humanity and the Earth *Love and Its Meaning in the World* is essential reading for anyone who'd like to gain a deeper understanding of our true mission as human beings and the purpose of evolution on Earth Chapters include The Division of the Sexes Lucifer and Christ The Mission of Reverence The Buddha's Teaching of Compassion and Love Faith Love and Hope Love without spiritual love nothing spiritual can arise in evolution When we practice love cultivate love creative forces pour into the world For human beings love is the most important fruit of experience in the sensory world Once we really understand the nature of love or compassion we will find that love is the way spirit expresses its truth in the world of the senses We may even say that in love the spiritual world awakens in the physical The more truly a soul inhabits the spiritual worlds the more it experiences lovelessness and lack of compassion as a denial of spirit itself Rudolf Steiner

Humanity's Last Stand Nicanor Perlas, 2018 The twenty first century is the age of science and technology It will also be the age when humanity confronts for the first time a challenge that may overwhelm and destroy the human species itself in as little as 12 to 20 years from now This is the challenge of artificial intelligence AI Deployed properly AI will confer tremendous benefits to society It is already doing this Deployed inappropriately or mistakenly AI will undermine human civilization as it is also starting to do and could then lead to the extinction of humanity Scientists philosophers and engineers call this latter possibility the existential risk of AI The fate of our future is literally in our hands Nicanor Perlas from the preface Although still in its earliest stages artificial intelligence is radically transforming all aspects of society With the immanent emergence of Artificial Super Intelligence ASI and the illusory temptations of transhumanism humankind stands at a crossroads Nicanor Perlas makes an urgent plea in this book It is imperative he says that we take immediate steps to ensure that digitized technology is aligned to human values and priorities Otherwise ASI will kill the essence of our humanity Furthermore if we do not master it now ASI will transform humanity into its own image ultimately it

will destroy the human race AI experts have not offered a single cogent solution to this existential threat Rudolf Steiner however not only foresaw these developments but also provided clear alternatives Steiner who developed a contemporary scientific approach to spirituality provided philosophical ontological and social innovations to save humanity from this technological abyss It is the task of the global anthroposophic movement to pioneer this civilization saving work to establish spiritual scientific ideas in mainstream culture that would allow AI to emerge in a healthier societal context Perlas offers an overview of the AI phenomenon together with its related transhuman concepts of perfecting humanity outlining the critical internal and external responses needed to meet them consciously In particular the author addresses the movement connected to the work of Rudolf Steiner indicating its all important tasks to cooperate with progressive individuals and movements including scientists and civil society activists to mobilize its daughter movements for action and ultimately to cooperate with the spiritual powers that have guided and served humanity since the dawn of time This says Perlas is humanity s last stand Failure is not an option *World Savors and Messiahs of the Roman Empire, 28 Bce-135 Ce* Milo Kearney,James V. Zeitz,2009 The first half of the book examines the past history of the contributing cultures in order to understand why this phenomenon occurred at this time and place It reviews the expectations or prophecies of a coming World Savior in the Zoroastrian Mithraic Jewish and Greco Roman communities Prophecies actual or perceived which dated the appearance of such a Savior are considered The second half of the book looks at the acclaimed Roman Jewish Samaritan and Greek Savors of the Soterial Age itself The question of why Jesus followers eventually prevailed over the others is addressed and the phenomenon is placed in a universal perspective with a review of soterial expectations in early religions around the globe The book concludes with the impact of the soterial movement on the Roman Empire and later Western World **The Gospel Trumpet** ,1920 *Record of Christian Work* Alexander McConnell,William Revell Moody,Arthur Percy Fitt,1912 Includes music **The British National Bibliography** Arthur James Wells,2003 *New-Church Messenger* ,1917 Common Sense ,1920 **The Esoteric** Hiram Erastus Butler,1888 **The British Quarterly Review** ,1872 **The Congregationalist** ,1901 **The Esoteric** ,1888 *Christian Register and Boston Observer...* ,1909 **The Encyclopedia Britannica** James Louis Garvin,Franklin Henry Hooper,Warren E.
