## **Mankind In Amnesia:**

*Mankind in Amnesia* Immanuel Velikovsky, 2010 Velikovsky returns to his roots as a psychologist and psychoanalytical therapist with humanity as a whole as his patient After an extremely revealing overview of the foundations of the various psychoanalytical systems he makes the step into crowd psychology and reopens the case of Worlds in Collision from a totally different point of view as a psychoanalytical case study      **The More You Explain the Less They Understand** Ruth Velikovsky Sharon, John Cathro Seed, 2008-10 Sharon brilliantly lifts the veil that shrouds the mystery of psychoanalysis revealing intrinsic truths that can forever assist people in their journeys to self discovery and growth Seed contributes a chapter on physical health      **Aba, the Glory and the Torment** Ruth Velikovsky Sharon, 2010 The daughter of Dr Immanuel Velikovsky one of the greatest scientists of modern times gives a very personal account of this special man his family background his eventful life his personality his extraordinary fate and his scientific work      *Mythmaking across Boundaries* Züleyha Çetiner-Öktem, 2016-04-26 This volume explores the dynamics of myths throughout time and space along with the mythmaking processes in various cultures literatures and languages in a wide range of fields ranging from cultural studies to the history of art The papers brought together here are motivated by two basic questions How are myths made in diverse cultures and literatures And do all different cultures have different myths to be told in their artistic pursuits To examine these questions the book offers a wide array of articles by contributors from various cultures which focus on theory history space place philosophy literature language gender and storytelling Mythmaking across Boundaries not only brings together classical myths but also contemporary constructions and reconstructions through different cultural perspectives by transcending boundaries Using a wide spectrum of perspectives this volume instead of emphasising the different modes of the mythmaking process connects numerous perceptions of mythmaking and investigates diversities among cultures languages and literatures viewing them as a unified whole As the essays reflect on both academic and popular texts the book will be useful to scholars and students as well as the general reader      **Ghosts of Atlantis** J. Douglas Kenyon, 2021-03-30 Reveals evidence of advanced ancient technology anomalous ancient maps time travel crystal science ancient Armageddon and Atlantis in the Bible Explores the true age of the Sphinx the Stone Age high tech found at Gobekli Tepe the truth of Rapa Nui Easter Island the Zep Tepi monuments of Egypt the mysteries of the Gulf of Cambay and what lies beneath the ice of Antarctica Examines the advanced knowledge of the ancients and how the search for Atlantis and other lost worlds reflects the search for the lost soul of humanity We live within the ruins of an ancient civilization whose vast size has rendered it invisible Remembered in myth as Atlantis Lemuria or other lost world archetypes the remains of this advanced civilization have lain buried for millennia beneath the deserts and oceans of the world leaving us many mysterious and inexplicable clues Investigating the perennial myth of a forgotten fountainhead of civilization J Douglas Kenyon presents extensive physical and spiritual evidence of a lost great culture the collective amnesia that wiped it from planetary memory and the countless ways

ancient catastrophes still haunt modern civilization He explores evidence of advanced ancient technology anomalous ancient maps extraterrestrial influence time travel crystal science and the true age of the Sphinx He examines evidence of Atlantis in the Bible and ancient Armageddon the Stone Age high tech found at Gobekli Tepe the truth of Rapa Nui Easter Island the Zep Tepi monuments of Egypt the mysteries of the Gulf of Cambay and what lies beneath the ice of Antarctica He looks at extinction events Earth's connection with Mars and how our DNA reveals that humanity has had enough time to evolve civilization and lose it more than once Exploring the advanced esoteric and spiritual knowledge of the ancients Kenyon shows that the search for Atlantis and other lost worlds reflects the search for the lost soul of humanity Drawing upon Velikovsky's notion of a species wide amnesia caused by the trauma of losing an entire civilization he reveals how the virtual ruins of a lost history are buried deep in our collective unconscious constantly tugging at our awareness As Kenyon reveals by overcoming the Great Forgetting humanity can find its way out of the haunted labyrinth in which we find ourselves lost today and rediscover the heights of spiritual and technological advancement of our ancient ancestors *The Velikovsky*

*Inheritance* David Marriott, 2006 *Psychoenergetics*, 1983 *A Time Before Deception* Thomas William Cooper, 1998 What was the real significance of war paint of the rituals of shamans of the mysterious communion with animals plants mountains and wild waters Looking beneath the surface of tribal communication this book is the first to focus on the myriad forms of traditional expression that were the outward manifestation of a sophisticated ethical and spiritual ecology that existed for millennia before contact with European culture Cooper describes practices of tribal cultures world wide and examines the communication ethic of the Dine Navajo of northern Arizona and the Shuswap people of British Columbia As this world of indigenous meaning opens to us so does the possibility that these groups may have originated from higher not more primitive cultures In an age when we find advertising deceptive entertainment violent and meaningless and politics laced with corruption we can learn rules for living from the deeper ethically grounded communication of Indigenous Peoples

**Ideas of Ascension and Translation** Peter J. Sorensen, 2004 This new interdisciplinary treatise on the unusual features of literary and cultural items connected with the ancient idea of translation including the motif of ascension as a phenomenon complete with its own premises literary and narratological conceits but one that has been understudied as an influence on Western culture religion and its literary production Professor Sorensen has completed a wide ranging study and made some surprising conclusions as to the full weight and impact of this religious motif in medieval Renaissance Classical and Modern literature and art The work is one of great cultural and aesthetic value Professor Andrew Woznecki Fleischacker Professor of Philosophy University of San Francisco **The Masks of Lucifer** David Morris, 1992 This book examines ufology and belief in extra terrestrials as a cultural phenomenon The author examines how 19th century occultism particularly theosophy has been revitalized under the guise of scientific speculation and captured the popular imagination Unexplained or mysterious phenomenon such as UFOs alien visitors crop circles and the evidence for the astronaut gods theory are habitually

interpreted by those who claim to have witnessed them in scientific terms a fact that the author believes can be explained partly by tensions and anxieties within society caused by political social and technological change      **The Integrity of the Book of Isaiah** Michael Phelan, 2005 For over two thousand years the book of Isaiah was accepted as the exclusive work of the son of Amoz the friend of Hezekiah The translators of the Septuagint regarded the book as a single work The well known discovery at Qumran in 1947 of two different copies of Isaiah also testifies to its unity One of these scrolls is virtually complete and is normally dated to the late second century BCE The New Testament adds its very considerable and for the believer decisive weight to the traditional viewpoint as may be seen from the eighty seven occasions where it cites the prophet's words In addition to this the Masoretic Text the standard Hebrew text of the Hebrew Canon and the unanimous testimony of all the ancient texts versions Jewish traditions and the early Christian Church report the book to be a single work At the end of the eighteenth century however this view that had held sway for millennia began to be challenged Isaiah it was asserted was a compilation by different authors and various so called proofs of this were brought forth by the critics Since then this view point has gained a massive momentum so that it is now considered to be the orthodox scholarly position We are assured that critical scholarship has demonstrated the separate existence of the work of no less than three authors usually referred to as Proto Isaiah Deutero Isaiah and Trito Isaiah The issues raised by this challenge to the traditional belief are firstly and obviously that the Hebrew Canon is charged with containing pseudonymous works but secondly and more importantly the authority of the New Testament is gravely undermined as the twenty one occasions where Isaiah is referred to by name relate to every section of the book and therefore to all three of the modernist's authors Either the evangelists and Paul were unaware of what has supposedly been unearthed by the critics and thereby face the charge of gross ignorance or they were not ignorant at all but accommodated themselves to the prejudices of those they wrote for and thereby knowingly and deliberately maintained a falsehood For believers then the matter is not merely of academic interest but affects his or her faith in the Inspiration of the New Testament A New Testament that through ignorance or deliberate policy propagates and maintains a falsehood cannot be Divinely Inspired or relied upon as our guide in the most vital issues which confront us all the issues of life and death in their eternal dimensions Clearly then the matter must be resolved and either the New Testament or the views of the critics must be abandoned the matter is as stark as that      Nativism Makarand R. Paranjape, 1997 This Book Is A Pioneering And Timely Intervention In The Critical Scene Today It Poses A Challenge To The Dominant Market Driven Globalising And Totalising Intellectual And Cultural Trends Of Our Times Which Threaten To Marginalize And Subdue Our Native Ways Of Life The Fifteen Essays Included Here Introduce And Define The Concept Analyse Its Classical Medieval And Colonial Background Trace Its Evolution Into The Contemporary Critical Field Debate Its Strengths And Weaknesses And Finally Attempt To Put It Into Practice By Applying It To Contemporary Literary Works The Work Is An Attempt To Show That There Are Alternative Possibilities Of Facing Up To Our Present Cultural Crises      **BYU**

**Studies** Brigham Young University, 2005 A voice for the community of LDS scholars      The Law of Private Right George Hugh Smith, 1890      **Journal of Scientific Exploration** ,1996 The official research journal of the Society for Scientific Exploration Provides a professional forum for presentation scrutiny and criticism of scientific research on topics outside the established disciplines of mainstream science A critical forum of rationality and observational evidence for the often strange claims at the fringes of science      *Cumulative Book Review Digest* ,1986      **Industrial Research & Development** ,1982

*Fads and Foibles in Modern Sociology and Related Sciences* Pitirim Aleksandrovich Sorokin, 1976-03-16 The purpose of these essays is to expose the nonscientific and half scientific elements in modern sociology and related disciplines v preface

*The Wisdom Category* Ingo Swann, 2018-09-02 THE REALITY OF INNATE HUMAN WISDOM MAKING In this sensitive work Ingo Swann once more opens up the continuing story of the fuller extent of human consciousness which by many accounts is amazing and intriguing These accounts are found in all cultures ranging from ancient to contemporary and the sum of them more than suggests that humans plus their innate consciousness are designed for a much richer and astonishing existence than what most societal programs encourage or permit The nexus or connected group of the discussions in this book turns on only two interactive questions Is human consciousness designed for self destruction OR Is it designed to continuously sustain its own pro survival into futurity There are many categories within human consciousness that work to sustain pro survival But all of them can be affiliated with one central heading WISDOM without which our species could not have survived anything even itself      *The Publishers Weekly* ,1981
