Manmade Breast Cancers Zillah R. Eisenstein, 2001 Preface Acknowledgments Personalizing the political Politicizing the personal Politicizing personal environments Politicized environs and personal breasts Personal is incompletely political

Cancer Activism Karen M. Kedrowski, Marilyn S. Sarow, 2007 The first comprehensive study of the breast cancer and the prostate cancer movements *The Praeger Handbook of Environmental Health* Robert H. Friis, 2012-04-23 Written by internationally acclaimed experts in the United States and abroad this comprehensive set of environmental health articles serves to clarify our impending challenges as well as opportunities for health and wellness Written in an accessible style that is appropriate for general readers as well as professionals in the environmental health field this work provides a comprehensive yet coherent review of the principal environmental challenges that confront our society This four volume work taps a multidisciplinary team of experts from across the nation to present emerging information about how our world is being impacted the effects on health and life and the steps we are taking and should take to correct or avoid the problems The Praeger Handbook of Environmental Health comprises four volumes Foundations of the Field Agents of Disease Water Air and Solid Waste and Current Issues and Emerging Debates Within each volume chapters cover the latest scientific research findings in an objective manner and present practical applications of the information Topics addressed include air and water contaminants PCBs hazardous waste household cleaning products dioxin plastics radiation radon electromagnetic fields and noise and light pollution just to name a few This title stands alone in its comprehensive coverage of environmental health topics *Joining Hands* Roger S. Gottlieb, 2019-05-20 Did Martin Luther King's spiritual understanding of political struggle truly help the Civil Rights movement Can breast cancer victims incorporate both spiritual wisdom and political action in their fight for life Confronting questions that challenge the foundations of both politics and spirituality Roger S. Gottlieb presents a brave new account The Public Shaping of Medical Research Peter Wehling, Willy Viehöver, Sophia Koenen, 2014-11-27 Patient organizations and social health movements offer one of the most important and illuminating examples of civil society engagement and participation in scientific research and research politics Influencing the research agenda and initiating funding and accelerating the development of diagnostic tools effective therapies and appropriate health care for their area of interest they may champion alternative sometimes controversial programs or critique dominant medical paradigms Some movements and organizations advocate for medical recognition of contested illnesses as with fibromyalgia or ADHD while some attempt to de-medicalize others such as obesity or autism Bringing together an international selection of leading scholars and representatives from patients organizations this comprehensive collection explores the interaction between civil society groups and biomedical science technology development and research politics It takes stock of the key findings of the research conducted in the field over the past two decades and addresses emerging problems and future challenges concerning the interrelations between health movements and patient organisations on the one hand and

biomedical research and research policies on the other hand Combining empirical case studies with conceptual discussion the book discusses how public participation can contribute to as well as restrict the democratization of scientific knowledge production This volume is an important reference for academics and researchers with an interest in the sociology of health and illness science and technology studies the sociology of knowledge medical ethics or healthcare management and research as well as medical researchers and those involved with health related civil society organizations **Routledge Handbook of Environmental Anthropology** Helen Kopnina,Eleanor Shoreman-Ouimet,2016-08-12 Environmental Anthropology studies historic and present human environment interactions This volume illustrates the ways in which today s environmental anthropologists are constructing new paradigms for understanding the multiplicity of players pressures and ecologies in every environment and the value of cultural knowledge of landscapes This Handbook provides a comprehensive survey of contemporary topics in environmental anthropology and thorough discussions on the current state and prospective future of the field in seven key sections As the contributions to this Handbook demonstrate the subfield of environmental anthropology is responding to cultural adaptations and responses to environmental changes in multiple and complex ways As a discipline concerned primarily with human environment interaction environmental anthropologists recognize that we are now working within a pressure cooker of rapid environmental damage that is forcing behavioural and often cultural changes around the world As we see in the breadth of topics presented in this volume these environmental challenges have inspired renewed foci on traditional topics such as food procurement ethnobiology and spiritual ecology and a broad new range of subjects such as resilience nonhuman rights architectural anthropology industrialism and education This volume enables scholars and students quick access to both established and trending environmental anthropological explorations into theory methodology and practice **From Pink to Green** Barbara L. Ley,2009 The breast cancer movement has emphasized the importance of reducing or eliminating exposure to chemicals and toxins The movement s disease prevention philosophy is chronicled from the beginning **Assembling Breast Cancer** Barbara L.
