Ward, 2005 Los Buddenbrook Thomas Mann, 1993 *The Cambridge Companion to Thomas Mann* Ritchie Robertson, 2002 Specially commissioned essays explore key dimensions of Thomas Mann's writing and life *Thomas Mann* Hugh Ridley, 1987 This textbook series is ambitious in scope It provides concise and lucid introductions to major works of world literature from classical antiquity to the twentieth century It is not confined to any single literary tradition or genre and will cumulatively form a substantial library of textbooks on some of the most important and widely read literary masterpieces Each book is devoted to a single work and provides a close reading of that text as well as a full account of its historical cultural and intellectual background a discussion of its influence and a guide to further reading The contributors to the series give full consideration to the linguistic issues raised by each text and within the overall framework of the series are given complete freedom in the choice of their critical method Where the text is written in a

language other than English full account is taken of readers studying the text in English translation While critical jargon is avoided important technical terminology is fully explained and thus this series will be genuinely accessible to students at all levels and to general readers *The German Bestseller in the Late Nineteenth Century* Charlotte Woodford, Benedict Schofield, 2012 The late nineteenth century was a crucial period for the development of German fiction Political unification and industrialization were accompanied by the rise of a mass market for German literature and with it the beginnings of the German bestseller Offering escape romance or adventure as well as insights into the modern world nineteenth century bestsellers often captured the imagination of readers well into the twentieth century and beyond However many have been neglected by scholars This volume offers new readings of literary realism by focusing not on the accepted intellectual canon but on commercially successful fiction in its material and social contexts It investigates bestsellers from writers such as Freytag Dahn Jensen Raabe Viebig Stifter Auerbach Storm M Ilhausen Marlitt Suttner and Thomas Mann The contributions examine the aesthetic strategies that make the works such a success and writers attempts to appeal simultaneously on different levels to different readers Writers tried to find freedom and be innovative while also accommodating the expectations of publishers and the marketplace This volume sheds light on the important effect of the mass market on the writing not just of popular works but of German prose fiction on all levels **Buddenbrooks** Martin Swales, 1991 The story of four generations of a wealthy bourgeois family in northern Germany facing the advent of modernity in an uncertain new world the family's bonds and traditions begin to disintegrate As Mann charts the Buddenbrooks decline from prosperity to bankruptcy from moral and psychic soundness to sickly piety artistic decadence and madness he ushers the reader into a world of stunning vitality pieced together from births and funerals weddings and divorces recipes gossip and earthy humor

Un-civilizing Processes? Mary Fulbrook, 2007 The collapse of the supposedly civilized German nation into the barbarism of Hitler's Third Reich has cast a long shadow over interpretations of German culture and society In the remarkable work of Norbert Elias himself a refugee from Nazi Germany a deep concern with the distinctiveness of the Germans is linked with an ambitious attempt to work out more general relations between broad historical processes patterns of state formation changing social structures and the character of the individual self as evidenced in changing thresholds of shame and embarrassment In critical engagement with Elias's notion of the civilizing process the essays collected here explore moments of excess and transgression moments when the very boundaries of civilization are both constructed and challenged Interdisciplinary contributions on topics ranging from medieval laughter cursing and swearing through to music the bourgeois self and aspects of modern violence highlight the complexity of inter relations between the individual imagination and creativity on the one hand and the brute facts of political power and social structural inequalities on the other and develop new insights into the changing patterns of culture and society in Germany from the Middle Ages to the present *Thomas Mann's Artist-Heroes* Jeffrey Meyers, 2014-02-28 Jeffrey Meyers has written acclaimed biographies of many of the most influential

authors of the twentieth century but none has affected him as deeply as Thomas Mann From his first youthful encounter with *Death in Venice* Meyers has cultivated a lifetime obsession with Mann s elegant style penetrating irony and insight into the life of the artist Admirers of Thomas Mann and of Jeffrey Meyers s biographies will find in this remarkable book the best introduction to one of the greatest writers of the modern age

The Buddenbrooks Thomas Mann, 2026-01-08 All his powers were in decline the only thing growing stronger in him was the conviction that all this could not last much longer that his demise was imminent *The Buddenbrooks* 1900 was Thomas Mann s first major success It draws on his own family history and on his vivid memories of growing up in the commercial town of Lübeck in North Germany The narrative traces the decline of a wealthy established merchant family from their height during the last decades of the nineteenth century to the onset of uncertainty in the modern world The novel displays Mann s interest in decline as a psychological process where artistic sensibility weakens the ruthless business instincts that founded the Buddenbrooks prosperity At the centre is the reluctant businessman Thomas Buddenbrook a tragic figure who conscientiously dedicates himself to a way of life that gradually undermines him Mike Mitchell s new English translation is accompanied by Ritchie Robertson s introduction and explanatory notes illuminating the cultural philosophical and personal context of the novel s composition

Understanding Thomas Mann Ronald Duncan Miller, 1966 *Landmarks in the German Novel* Peter Hutchinson, 2007 There is a large pool of German novelists in whose oeuvre we may look for works of landmark significance and at certain periods of its history German fiction is particularly rich Yet although the novel begins to assert itself in the seventeenth century we have to wait until the late eighteenth and Goethe s first major prose work *Werther* to see it truly rise to the level of other genres The thirteen novels featured in this collection have all proved milestones in the development of the form and there is heavy prominence given to works by Goethe himself and by Thomas Mann Through these as well as those by such figures as Kafka Hesse and Günter Grass we can trace the development of the novel to its far more self conscious form ranging through the social studies of the nineteenth to works which treat a variety of intellectual psychological and philosophical issues in the twentieth A second volume will cover landmarks published between 1959 and the present day These essays all by specialists in the relevant field were originally delivered as lectures in the University of Cambridge

History and Fiction Julia Jackson, 1991 *Thomas Mann, Buddenbrooks* Fred Müller, 1979 *Über Thomas Manns "Buddenbrooks"* Yasunori Horiuchi, 1982 *Thomas Mann; a Collection of Critical Essays* Henry Hatfield, 1964 Mann s complex often ambiguous works are studies in chronological order by an international group of critics
