Redefining Latin American Historical Fiction H. Weldt-Basson,2013-06-05 Current scholarship on Latin American historical fiction has failed to take feminism and postcolonialism into account This study uses these important contemporary discourses as a starting point for a new definition of the Latin American historical novel that includes national identity magical realism historical intertextuality and symbolism **(Re)collecting the Past** Victoria Carpenter,2010 This volume addresses the representation of history and collective memory in Latin American literature The book presents a variety of novel perspectives on the subject linked by the common themes of the subjectivity of time and history literature used as a political tool and the representation of marginalized groups The collection takes an original approach to viewing national histories as represented in literature by adopting a cross disciplinary position While there are other publications addressing some of the issues raised in this collection this book goes beyond literary representations of history The essays collected here examine technological political and social developments as a means of creating re structuring and in some cases potentially destroying nations *La sombra del gobernador* Micheline Dusseck,2014-03-25 1789 was the beginning of major changes in France and one of its most prized colony Santo Domingo The revolution changed the traditional structures of society but this turbulence brought out the greatness and the perversity of its protagonists Jos phine no exception explosive mixture of races

Studies on pseudepigrapha of Lucian and works by Lucian sometimes considered spurious Francesca Mestre,Pilar Gómez,Cristian Tolsa,2024-12-31 Lucian of Samosata is widely recognized as one of the foremost figures of 2nd century Greek literature and the broader Second Sophistic movement despite his distinct individuality among his contemporaries Unlike many intellectuals of this era including sophists and writers in general Lucian has consistently attracted attention from the Middle Ages to the present passing through the Renaissance and Humanist periods One recurring issue in the study of his works affecting wider topics such as manuscript tradition stylistic analysis and linguistic study is the question of authenticity that is whether certain texts attributed to him are genuinely his own or should be deemed spurious The objective of the nine contributions in this volume is not to solve all the questions related to this subject but to conduct a detailed examination of some of these works whether only allegedly or clearly spurious assessing them on their own merits and at the same time situating them within the broader context of Lucian's oeuvre and tradition

Projections of Peronism in Argentine Autobiography, Biography and Fiction Lloyd Hughes Davies,2007 As shown by the worldwide success of both the stage and film versions of Evita Eva Perón continues to arouse interest beyond the borders of Argentina Within the country she holds near mythic status yet the effect of Peronism on Argentine culture demands to be better understood Lloyd Hughes Davies opens a new dimension on Perón's impact by widening the traditional focus on her influence on literature to include autobiographies and biographies In the process he demonstrates how the boundaries between the novel life writing and historical writing have become increasingly blurred
