Working with and for Ancestors Chelsea H. Meloche, Laure Spake, Katherine L. Nichols, 2020-11-29 *Working with and for Ancestors* examines collaborative partnerships that have developed around the study and care of Indigenous ancestral human remains. In the interest of reconciliation, museums and research institutions around the world have begun to actively seek input and direction from Indigenous descendants in establishing collections care and research policies. However, true collaboration is difficult, time consuming, and sometimes awkward. By presenting examples of projects involving ancestral remains that are successfully engaged in collaboration, the book provides encouragement for scientists and descendant communities alike to have open and respectful discussions around the research and care of ancestral human remains. Key themes for discussion include new approaches to the care for ancestors, the development of culturally sensitive museum policies, the emergence of mutually beneficial research partnerships, and emerging issues such as those of intellectual property, digital data, and alternatives to destructive analyses. Critical discussions by leading scholars also identify the remaining challenges in the repatriation process and offer a means to continue moving forward. This volume will appeal to a broad interdisciplinary audience interested in collaborative research and management strategies that are aimed at developing mutually beneficial relationships between researchers and descendant communities. This includes students and researchers in archaeology, anthropology, museums studies, and Indigenous communities.

This book is an attempt to present the traditional Scholastic philosophy of man's nature in a fresh light from a point of view that may make it more acceptable to the modern scientific mind. This should please the philosopher looking for a new presentation and the psychologist looking for philosophical orientation. The object is not to dispense with either psychology or philosophy; marriage is never the reduction of one to the other. *Vive la difference*. That the two are compatible is the theme of this book. It is up to the reader to decide whether the result is a happy mating or a mismatch.
