Folkersma, 2024-09-23 We cannot imagine a world without plastics. Plastic products make our daily life safe, healthy and convenient. Besides all the benefits the current plastics economy gives rise to environmental concerns with respect to fossil oil depletion and plastic waste accumulation. In a circular economy, however, plastics can be redesigned for reusability and recyclability. This book makes the topic of sustainable plastics approachable for students and career starters alike, describing the nature and chemistry of bio polymers as well as how to create a closed loop of plastic materials. The new edition expands on vitrimers, microplastic recycling and examples. Discusses the new plastics economy, chemistry and properties of polymers, biodegradable plastics and polymers from renewable resources and plastics recycling.

Life Without Plastic Jay

Sinha, Chantal Plamondon, 2017-12-12 After the birth of their son Jay Sinha and Chantal Plamondon set out on a journey to eliminate plastic baby bottles as the Canadian government banned BPA. When they found it was difficult to procure glass baby bottles, Jay and Chantal made it their mission to not only find glass and metal replacements for plastic but to make those products accessible to the public as well. Printed on wood-free FSC sustainable certified paper and with BPA-free ink. Life Without Plastic strives to create more awareness on the issue of BPA, polycarbonates and other single-use plastics and provides readers with safe, reusable and affordable alternatives. While plastic has its uses in technology, medical and some products around the home, certain single-use plastics release chemicals when put in contact with food and water. These disposable plastics are also found in produce and cleaning products. Jay and Chantal show readers how to analyze their personal plastic use, find alternatives and create easy replacements in this step-by-step guide. Get your family healthier, spread consciousness and create positive reflection on you for helping the environment by taking action.
