## **New Objective Tests In Religious Studies:**

*New Objective Tests in Religious Studies* William Nicoll Greenwood, Howard W. Marratt, 1977      Religious Education and Religious Understanding Raymond Holley, 2016-09-13 This book first published in 1978 introduces readers to the topic of the philosophy of religious education in a way which demands little philosophical expertise on their part. It puts forward a particular theory of religious education in such a way that most of the major questions are faced and sufficient answers given to enable readers to examine the theory critically and so further the development of philosophy and education      *Routledge Library Editions: Philosophy of Education* Various Authors, 2022-07-30 This set of 21 volumes originally published between 1955 and 1997 amalgamates several topics on the philosophy of education with a particular focus on religious education curriculum studies and critical thinking. ## **Systematic Theology as a Rationally Justified Public Discourse about God**

Michael Agerbo Mørch, 2023-01-23 For centuries it has been discussed whether systematic theology is a scientific discipline. But it is not obvious what is meant by either systematic theology or scientific discipline. Michael Agerbo Mørch presents an understanding of systematic theology as a tripartite discipline and science as a rationally justified public discourse about a given topic. Systematic theology is shown to meet the most generally accepted criteria for scientific work since its theories can be tested and even falsified in an intersubjective setting. This can be done by the most proper tool we have for assessing and comparing scientific theories which is coherence theory. Therefore even though systematic theology is a distinct and normative discipline it is not compromising for its theories because it can present its theses in a transparent way that can be checked and criticized by peers and compared to relevant alternatives. As such the book shows that systematic theology is a scientifically strong discourse that meets accepted criteria to the same degree as other disciplines
