

First-Gen law students:
challenges and opportunities

New Perspectives On American Law

Lief H. Carter

New Perspectives On American Law:

New Perspectives on Property Law Alistair Hudson, 2013-03-04 First published in 2003 Routledge is an imprint of Taylor Francis an informa company **New Perspectives** ,1984 *Capital Punishment: New Perspectives* Peter Hodgkinson, 2016-04-08 This collection asks questions about the received wisdom of the debate about capital punishment Woven through the book questions are asked of and remedies proposed for a raft of issues identified as having been overlooked in the traditional discourse It provides a long overdue review of the disparate groups and strategies that lay claim to abolitionism The authors argue that capital litigators should use their skills challenging the abuses not just of process but of the conditions in which the condemned await their fate namely prison conditions education leisure visits medical services etc In the aftermath of successful constitutional challenges it is the beneficiaries arguably those who are considered successes having been saved from the death penalty and now serving living death penalties of one sort or another who are suffering the cruel and inhumane alternative Part I of the book offers a selection of diverse nuanced examinations of death penalty phenomena scrutinizing complexities frequently omitted from the narrative of academics and activists It offers a challenging and comprehensive analysis of issues critical to the abolition debate Part II offers examinations of countries usually absent from academic analysis to provide an understanding of the status of the debate locally with opportunities for wider application **New Perspectives in World History** Shirley H. Engle, 1964 **New Perspectives on Policy Planning and Analysis 2002** □□□□□□□□□□, 2003 90 **New Perspectives on Prisons and Imprisonment** James B. Jacobs, 1983 *New Perspectives on American Law* Lief H. Carter, 1997 New Perspectives on American Law provides students with a political science perspective on the common law of contracts torts criminal law property and civil procedure Selected cases and materials replete with commentary are tailored for undergraduate use Each of the five sections begins with a short introductory essay outlining the topic and the social political science implications raised by the materials The cases in each section have been edited to be understandable and nonessential citations and secondary references in cases have been deleted This textbook is unique in that it not only argues that traditional common law areas of the law are worthy of political study but also goes on to present those subjects for political study There are other texts that offer snippets of many different areas of law and claim that these areas are fit subjects for political study but none analyze these subjects or offer the student the significant exposure to such matters of the law as New Perspectives on American Law *Igniting King Philip's War* Yasuhide Kawashima, 2001 Although it is usually considered from a political or cultural standpoint Kawashima retells the story of the murder and trial from the perspective of legal history and overlapping jurisdictions He shows that Plymouth's aggressive extension of its legal authority marked the end of four decades of legal coexistence between Indians and colonists ushering in a new era of cultural and legal imperialism **The Constitution and the Conduct of American Foreign Policy** David Gray Adler, Larry Nelson George, 1996 In this provocative and readable volume eleven leading

constitutional authorities challenge business as usual in American foreign policymaking For far too long they contend Americans have acquiesced to presidential claims to sweeping executive powers in foreign affairs thanks to imperial minded presidents a weak willed Congress and neglectful scholars These authors forcefully argue that the president is not the supreme crafter of foreign policy and that Congress must provide more than a rubber stamp for the president s agenda Unilateral presidential control of foreign relations they warn can pose a grave threat to our nation s welfare and is simply without constitutional warrant Combining constitutional theory with keen historical insights these authors illuminate the roots of presidential abuse of executive power and remind us of the past and potential costs of such disregard for our unique system of checks and balances An essential guide for all concerned citizens and members of Congress this volume should help revive a proper understanding of this crucial dimension of American democracy **The Nation** ,1916 New Perspectives on Economic Crime Hans Sjögren,Göran Skogh,2004 Economic crime is by definition crime committed to gain profit within an otherwise legitimate business Examples are illegal pollution brand name infringement and tax evasion The victims of such crimes may be private citizens businesses and the state The leading authors in this vital new book survey recent advances in the study of economic crime from a variety of disciplinary perspectives The key areas examined are the economics of corporate crime enforcing regulation law and economics of environmental crime corporate fraud and tax evasion the history of economic crime This important volume will be of interest to scholars and policymakers involved in examining and regulating economic crime in both developed and developing countries **Indian-made** Erika Marie Bsumek,2008 In works of silver and wool the Navajos have established a unique brand of American craft And when their artisans were integrated into the American economy during the late nineteenth century they became part of a complex cultural and economic framework in which their handmade crafts conveyed meanings beyond simple adornment Bsumek unravels the layers of meaning that surround the branding of Indian made When Navajo artisans produced their goods collaborating traders tourist industry personnel and even ethnologists created a vision of Navajo culture that had little to do with Navajos themselves And as Anglos consumed Navajo crafts they also consumed the romantic notion of Navajos as primitives perpetuated by the marketplace These processes of production and consumption reinforced each other creating a symbiotic relationship and influencing both mutual Anglo Navajo perceptions and the ways in which Navajos participated in the modern marketplace Ultimately Bsumek shows that the sale of Indian made goods cannot be explained solely through supply and demand It must also reckon with the multiple images and narratives that grew up around the goods themselves integrating consumer culture tourism and history to open new perspectives on our understanding of American Indian material culture **BOOK JACKET** **Law Books Published** ,1997 *Investment Weekly* ,1918 **The Investment Weekly** ,1918 **The Weekly Underwriter** Alasco Delancey Brigham, Henry Rogers Hayden,1926 **Investment Weekly and Banking World** ,1918 Explicit and Authentic Acts David E. Kyvig,1996 This book could not be more timely Kyvig

provides a rich and comprehensive history of the politics and operation of the amending process It deserves the attention of not only historians political scientists and legal scholars but also those concerned with public affairs david M O Brien author of Storm Center The Supreme Court in American Politics A lively challenge to traditional views William Leuchtenburg author of The Supreme Court Reborn **Forthcoming Books** Rose Arny, 1999-08 *The American Historical Review* John Franklin Jameson, Henry Eldridge Bourne, Robert Livingston Schuyler, 1914 American Historical Review is the oldest scholarly journal of history in the United States and the largest in the world Published by the American Historical Association it covers all areas of historical research
