An Economic Sociology of Immigrant Life in Canada Abdolmohammad Kazemipur, 2004 Not long ago the integration of immigrants in host societies was perceived mostly in terms of assimilation an overly simplistic scenario based on which immigrants would learn the language and culture of the native population and the rest would just follow However the developments of the past two decades have shown just how complex this process can be This new book shows the diverse experiences of various groups of immigrants This book takes a fresh look at the experiences of immigrants to Canada The contents of the book are based on over five years of research the author has carried out in Canada and elsewhere using a variety of data sources from quantitative census data through specially designed survey information to materials derived from qualitative research The

book is structured in such a way that it can be beneficial to a wide range of readers those interested in in depth examination of immigration issues those leaning more towards narrative texts and those looking only for general research trends and theoretical and policy implications Literature The Calm Before the Storm Preparing to Migrate to Canada Haves and Have nots Poverty Experiences of Immigrants The New Kid in Town Neighbourhood Poverty and Economic Performance What You Know and Who You Know Human Capital Social Capital and Immigrant Life Wrap up and Implications References Index

Ineligible Krysi Maki,2021-11-10T00:00:00Z A comprehensive examination of welfare state surveillance and regulation of single mothers in Ontario *Encyclopedia of Social Welfare History in North America* John M. Herrick,Paul H. Stuart,2005 This encyclopedia provides readers with basic information about the history of social welfare in Canada Mexico and the United States The intent of the encyclopedia is to provide readers with information about how these three nations have dealt with social welfare issues some similar across borders others unique as well as to describe important events developments and the lives and work of some key contributors to social welfare developments **New Poverty** David Cheal,1996-06-30 Cheal argues that the sociology of poverty has entered a new postmodern phase The new poverty is about loss of faith in relationships that were once believed to last a lifetime and in government programs that we used to think would last for generations The new poverty is about the economic fall of individuals and countries who used to be affluent and who once dreamed that their affluence would go on forever It is about the experience of free falling without a parachute and without much of a safety net The new poverty is about people who lose their jobs when their company downsizes It is about people whose hours of employment are cut in half when the work runs out And it is about couples who separate thereby plunging one of them and probably their children into a low income level that they had never anticipated What is new about the new poverty is the sense of surprise that poverty can hit so suddenly that people can fall so far before they are caught and lifted up that the poverty of children still troubles us after a century of progress The new poverty is about our loss of faith not only in relationships that were once thought to last a lifetime but also in government programs that we believed would last for generations Cheal translates the experience of the new poverty into sociological theory and into social statistics His purpose is to provoke serious critical reflection about families today and the risks of being poor An important study for scholars and researchers involved with family issues and social policy Power and Resistance Wayne Antony,Jessica Antony,Les Samuelson,2020-05-06T00:00:00Z How do we make sense of the social problems that continue to plague Canadian society Our understanding of issues such as poverty racism violence homophobia crime and pollution stems from our view of how society is structured From the dominant neoliberal perspective social problems arise from individuals making poor choices From a critical perspective however these social troubles are caused by structural social inequalities Disparities in economic

social and political power that is relations of power based on class race gender and sexual orientation are the central structural element of capitalist patriarchal colonialist societies The contributors to *Power and Resistance* use this critical perspective to explore Canadian social issues such as poverty colonialism homophobia violence against women climate change and so on This sixth edition adds chapters on the corporatization of higher education the lethal impacts of colonialism democracy the social determinants of health drug policy and sexual violence on campus

Electing a Diverse Canada Caroline Andrew, John Biles, Myer Siemiatycki, Erin Tolley, 2009-07-01 *Electing a Diverse Canada* presents the most extensive analysis to date of the electoral representation of immigrants minorities and women in Canada Covering eleven cities as well as Canada's Parliament it breaks new ground by assessing the representation of diverse identity groups across multiple levels of government The book begins by introducing the literature on electoral representation and the main concepts and frameworks underlying research on immigrants women and minorities Using survey and census data its chapters provide snapshots of officials elected at municipal provincial and federal levels and compares these to portraits of the general population The volume concludes by reviewing key findings and discussing patterns of over and under representation in Canadian government Electoral representation is an important indicator of a democracy's health yet there is limited research on how well elected representatives reflect the characteristics of voters *Electing a Diverse Canada* provides a baseline for future research not only by assessing electoral representation but also by outlining key challenges impeding the future health of Canadian democracy
