New Religious Humanists

New Religious Humanists:

The New Religious Humanists Gregory Wolfe, 1997 In Gregory Wolfe's collection *The New Religious Humanists* we find the work of a new group of religious intellectuals who have a compelling vision for cultural renewal. In his Introduction Wolfe argues that the only viable alternative to the tired debates between Left and Right comes from one of the oldest and most relevant strains of the Judeo Christian tradition. The writers and topics gathered here offer a rich feast for the mind and heart including moving personal narratives, meditations on the role of faith in public life and reflections on environmentalism, abortion, biotechnology and the arts.

The new religious humanists : a reader Gregory Wolfe (ed), 1997 **Reviving**

Christian Humanism Don S. Browning, 2009-11-30 Browning argues that the time is right for religious intellectuals in conversation with the social sciences to reinvigorate the deep humanistic strands of the grand religions and enter into global interfaith dialogue on that basis. Concentrating on the Christian heritage he draws on such diverse disciplines to envision a broader canvas for psychology, a keener theological use of new insights from psychology, a more complex understanding of how personal change is fostered, a recognition of the indispensable role of institutions in personal formation and ethical deliberation and a deeper spirituality that directly feeds the common human endeavor and the public good.

Humanism, a New Religion Charles Francis Potter, Clara Cook Potter, 1930 **Humanism** Anthony B. Pinn, 2015-08-27 Who are the Nones? What does humanism say about race, religion and popular culture? How do race, religion and popular culture inform and affect humanism? The demographics of the United States are changing, marked most profoundly by the religiously unaffiliated or what we have to come to call the Nones. Spread across generations in the United States, this group encompasses a wide range of philosophical and ideological perspectives, from some in line with various forms of theism to those who are atheistic and all sorts of combinations in between. Similar changes to demographics are taking place in Europe and elsewhere.

Humanism Essays on Race, Religion and Popular Culture provides a much needed humanities based analysis and description of humanism in relation to these cultural markers. Whereas most existing analysis attempts to explain humanism through the natural and social sciences, the what of life, Anthony B. Pinn explores humanism in relation to how life is arranged, socialized, ritualized and framed. This groundbreaking publication brings together old and new essays on a wide range of topics and themes from the African American experience to the development of humanist churches and the lyrics of Jay Z.

Christian Humanism John P. Bequette, 2007 In Christian Humanism, John Bequette articulates the principles of the Christian humanist worldview and reflects upon contemporary culture in light of these principles. Writing from the perspective of the Catholic faith, Bequette focuses on the healing and restorative dimensions of Christianity in relation to academics, literature, economics, Christian-Jewish relations, gender issues, human life issues and political life.

Re-envisioning Christian Humanism Jens Zimmermann, 2017 Since the early 1980s there has been renewed scholarly interest in the concept of Christian Humanism. A number of official Catholic documents have stressed the importance of Christian humanism as a vehicle of Christian social

teaching and indeed as a Christian philosophy of culture Fundamentally humanism aims to explore what it means to be human and what the grounds are for human flourishing Featuring contributions from internationally renowned Christian authors from a variety of disciplines in the humanities Re Envisioning Christian Humanism recovers a Christian humanist ethos for our time The volume offers a chronological overview from patristic humanism to the Reformation and beyond and individual examples Jewell Calvin of past Christian humanisms The chapters are connected through the theme of Christian paideia as the foundation for liberal arts education ***Educating Humanists*** William David Hart, 2022-01-01 This volume explores the challenges that humanists face from hostile religious traditionalists on its right flank and from the political antihumanism which is often postsecular of critics on its left flank Given this dual challenge how can secular humanism educate sustain and reproduce itself ***Religious Humanism***, 1999 ***Dust that Breathes*** William Schweiker, 2010-12-09 In this insightful and look at the practical challenges and possibilities for Christian life in the global age Schweiker investigates Christianity's current relevance and discusses how the life of faith can be oriented Explores the big religious themes of modern life including religious identity in global times the role of conscience integrity and versions of religious humanism Written by an author who is internationally recognized as one of the world's leading theologians Draws on the work of some prominent contemporary philosophers and theologians to clarify the nature of faith Unique in its appreciation of the ambiguity of religion in its representations of the highest human achievements as well as the very worst of human actions using a balanced and engaged approach to discusses contentious theological and intellectual issues ***Religion and the Human Future*** David E. without religious belief Following Kurtz's Transcendental Temptation and Forbidden Fruit Living without Religion completes a trilogy of humanist works that responds to theistic critics of modern secular humanism **Erasmus and the New Testament**

Albert Rabil, 1993 Erasmus was a sixteenth century educator, theologian, satirist and scholar and there have been a number of attempts to describe his intellectual development and to measure his greatness. However, Rabil believes that most interpretations of Erasmus and his work fail in analyzing Erasmus in a way consistent with all the source material on which such an interpretation must be based. The author argues that religion and humanism are the proper poles in relation to which Erasmus' intellectual development must be understood. In Rabil's own interpretation of Erasmus, he covers Erasmus' intellectual development as it relates to his editing of the New Testament in Greek, his translation of it into Latin, a look at the methodology in Erasmus' annotations and paraphrase of Romans, and a comparison of Erasmus and Luther on Romans. Rabil demonstrates that Erasmus' intellectual development occurred at every turning point from his first poem in 1483 until he achieved a maturity of outlook in his edition of the Greek New Testament in 1516. Originally published in 1972 by Trinity University Press *Sacred Humanism without Miracles* R. Saltman, 2012-04-24 The New Atheists claim that religion always leads to fanaticism, is baseless, State-backed religion results in tyranny. Sacred humanists work to implement their highest values that will improve this world, separation of church and state, eliminating denigration of nonbelievers, assuring just governance and preventing human trafficking **Making the Manifesto** William F. Schulz, 2002 **Evangelical Humanism**

Lynn Harold Hough, 1925 *The Humanist Alternative* Paul Kurtz, 1973 No Marketing Blurb **Skepticism and Humanism** Paul Kurtz, 2023-05-31 As we begin the third millennium, there is cause for cautious optimism regarding the human prospect. Democratic revolutions and the doctrine of universal human rights have captured the imagination of large sectors of humanity while major advances in science and technology continue to conquer disease and extend life, contributing to rising standards of living, affluence and cultural freedom on a worldwide basis. Paradoxically, at the same time, ancient authoritarian fundamentalist religions have grown in vitriolic intensity along with bizarre New Age media-driven paranormal belief systems. Also surprising is the resurgence of primitive tribal and ethnic loyalties unleashing wars of intolerance and bitterness. In *Skepticism and Humanism*, Paul Kurtz locates these threatening developments within a long-standing and largely unchallenged theological worldview. He proposes as an alternative to religion a new cultural paradigm rooted in scientific naturalism, rationalism and a humanistic outlook. An estimated 60 percent of scientists are atheists or agnostics. However, the skeptical world view has been given little currency even in advanced societies because of a cultural prohibition against the criticism of religion. At the same time, science has become increasingly narrow and specialized so that few people can draw on its broader intellectual and cultural implications. *Skepticism and Humanism* attempts to meet this need. It defends skepticism as a method for developing reliable knowledge by using scientific inquiry and reason to test all claims to truth. It also defends scientific naturalism, an evolutionary view of nature, life and the human species. Kurtz sees the dominant

religious doctrines as drawn from an agricultural nomadic past and emphasizes the need for a new outlook applicable to the postindustrial information age At the same time he rejects postmodernism for abandoning science and embracing a form of nihilism There can be no doubt that as a new global civilization emerges scientific naturalism rationalism and secular humanism have something significant to say about the meaning of life Skepticism and Humanism shows how they can to foster democratic values and social prosperity The book will be important for philosophers scientists and all those concerned with contemporary issues The Humanist ,1917 **New Age Globalism** H.
