Translated from the Russian by George S. Counts and Nucia P. Lodge** Il'in, George S. Counts, Nucia Lodge (P.), 1931      *Intercollegian*, 1930      *Passionate Commitments* Julia M. Allen, 2013-06-01

Developing their rhetorical skills in early twentieth century women's organizations Anna Rochester and Grace Hutchins life partners and heirs to significant wealth aimed for revolution rather than reform They lived frugally while devoting themselves to several organizations in succession including the Episcopal Church and the Fellowship of Reconciliation as they searched for a place where their efforts were welcomed and where they could address the root causes of social inequities In 1927 they joined the Communist Party USA and helped to build the Labor Research Association There they engaged in research and wrote books pamphlets and articles arguing for gender and racial equality and economic justice Julia M Allen's *Passionate Commitments* is a love story but more than that it is a story of two women whose love for each other sustained their political work Allen examines the personal and public writings of Rochester and Hutchins to reveal underreported challenges to capitalism as well as little known efforts to strengthen feminism during their time Through an investigation of their lives and writings this biography charts the underpinnings of American Cold War fears and the influence of sexology on political movements in mid twentieth century America      **Learning from the Left** Julia L. Mickenberg, 2005-11-10

At the height of the Cold War dozens of radical and progressive writers illustrators editors librarians booksellers and teachers cooperated to create and disseminate children's books that challenged the status quo *Learning from the Left* provides the first historic overview of their work Spanning from the 1920s when both children's book publishing and American Communism were becoming significant on the American scene to the late 1960s when youth who had been raised on many of the books in this study unequivocally rejected the values of the Cold War *Learning from the Left* shows how radical values and ideas that have now become mainstream including cooperation interracial friendship critical thinking the dignity of labor feminism and the history of marginalized people were communicated to children in repressive times A range of popular and critically acclaimed children's books many by former teachers and others who had been blacklisted because of their political beliefs made commonplace the ideas that McCarthyism tended to call subversive These books about history science and contemporary social conditions as well as imaginative works science fiction and popular girls mystery series were readily available to children most could be found in public and school libraries and some could even be purchased in classrooms through book clubs that catered to educational audiences Drawing upon extensive interviews archival research and hundreds of children's books published from the 1920s through the 1970s *Learning from the Left* offers a history of the

children's book in light of the history of the Left and a new perspective on the links between the Old Left of the 1930s and the New Left of the 1960s Winner of the Grace Abbott Book Prize of the Society for the History of Children and Youth    **Child Study** ,1930    New Russian's Primer M.
