

# The Study on Small Schools and Small Learning Communities

*Small learning communities (SLCs)* have been shown to benefit both [teachers](#) and students, according to a number of publications. They have contributed to the development of SLCs as a method of school improvement that seems to reduce the achievement gap between students from various ethnic origins while simultaneously raising student achievement. Despite their contributions to our knowledge of the SLC approach's potential, these papers raise the question of what particular instructional, curricular, and organizational practices result in these intended outcomes. In response, the published research and documentation findings that answer this question are compiled in this paper.

To date, "true believers" and those having a specific viewpoint to present — the benefits of professional academies, for instance — have mostly dominated writing about small learning communities. There hasn't been much thorough research done on the subject, and while many academics have written about it, they have
