## **New Structure Of Labor Relations Tripartism And Decentralization:**

*The New Structure of Labor Relations* Harry C. Katz, Wonduck Lee, Joohee Lee, 2018-07-05 Tripartism the national level interaction among representatives of labor management and government occurs infrequently in the United States Based on the U S experience then such interactions might seem irrelevant to economic performance and policymaking The essays in this volume reveal the falsity of that assumption Contributors from eight industrialized countries Australia Germany Ireland Italy Japan Korea the Netherlands and the United States examine the changing nature of labor management relations with a particular focus on the role of tripartism and the decentralization of collective bargaining Although nonexistent in the United States and on the decline in Japan and Australia tripartism flourishes in Germany Ireland and the Netherlands expanding beyond traditional corporatist partners to include women s organizations senior citizens and other representatives of civic society The vibrancy of the coordinating mechanisms that help shape employment conditions and labor policy contradicts the traditional belief that an overpowering unilateral decentralizing shift is underway in labor management interactions The contributors show that these mechanisms are in fact increasing in the face of intensified pressures promoting greater flexibility in work organization and working time [The Oxford Handbook of Work and Organization](#) Stephen Ackroyd, 2006 Aims to bring together present and discuss what is known about work and organizations and their connection to broader economic change in Europe and America This volume contains a range of theoretically informed essays which give comprehensive coverage of changes in work occupations and organizations
