New Trends In Magnetism Magnetic Materials And Their Applications:

New Trends in Magnetism, Magnetic Materials, and Their Applications J.L. Morán-López, José M. Sánchez, 2013-11-11 During August 24-27 1993 approximately 60 scientists from the Americas Europe and Japan gathered in the city of Guanajuato in the state of Guanajuato Mexico at the II Latin American Workshop on Magnetism Magnetic Materials and their Applications The group of scientists converging into the beautiful city of Guanajuato had come from Argentina Chile Brazil Venezuela Cuba several places in Mexico U S A Japan Spain France Italy Germany Austria Switzerland and Denmark The event attested to the success of the previous Workshop on Magnetism Magnetic Materials and their Applications held in Havana Cuba in 1991 as well as to the interest level of activity and quality of the work being carried out in Latin America in the area of magnetism and magnetic materials Equally important to everyone present was the fact that we had come to honor a friend Professor L M Falicov on his sixtieth birthday The choice of a Latin American Workshop on magnetism as a Festschrift for Leo Falicov was in our opinion quite appropriate not only because of Leo's strong ties to Latin America but also because of his superb contributions to science and in particular to magnetism Professor Falicov was born in Buenos Aires Argentina where he spent a good part of his formative years
