The book reports the findings of the Children's Reading Choices project conducted by the authors from the University of Nottingham and the largest national survey of children's reading choices since the 1970s. **The Unbound Book** Joost Kircz, Adriaan Weel, 2025-10-01 What might the digital revolution we're currently living through mean for conventional paper books? Is there a future for the long form text at all? At the onset of the digital deluge books had evolved into the perfect reading machine. In the screen era technology increasingly and emphatically foregrounds itself in the digital reading experience. It is one thing to identify what we lose in the process, which is a natural human tendency but quite another and it might be argued an ultimately more fruitful one to identify how that screen technology might shape the activities for which we always used to use paper. Screen technology is likely to determine our learning and entertainment habits. Indeed the industrial forms of reading that may be performed by the computer have a very tenuous relationship to what we have always understood by the term. Awareness of the issues and eventually new insights are essential if we want screen technology to offer a digital future to the long form text. **Reader's Choice** E. Margaret Baudo, Ellen S. Bober, Mark A. Clarke, Barbara K. Dobson, Sandra Silberstein, 1994 The 4th edition of Reader's Choice the world's best known reading skills textbook for ESL/EFL students includes teachers' favorite features. Original authentic readings from a variety of sources now including websites. Specific instruction and exercises for developing students' skills in skimming, scanning, reading for thorough comprehension and critical reading. Readings accompanied by a variety of exercises including a composition focus to encourage use of the text in integrated reading/writing programs. The popular format of alternating skills units with reading units is back in the 4th edition. Favorite readings like The Lottery, The Sacred Rac and the mysteries are back; some like The Milgram Experiment have been augmented with supplemental material that brings the story/article into the new millennium. Readings in the new edition come from websites, questionnaires, menus, schedules, maps, magazines, newspapers, advertisements, textbooks and poetry and fiction. Topics addressed by the new readings include the globalization of tourism, English as a global language, genetic engineering, aging of the world's population, the world's fight for food and the cross-generational workplace. The answer key is included in the back.
