## **Managing Others Creatively:**

*Managing Creative People* Gordon Torr, 2011-01-19 A clash between the ideology of growth and the growth of ideas between control and creativity between measurement and the immeasurable between predictability and the fickle muses of inspiration is engulfing our boardrooms In this scathing swipe at the institutionalised idiocy that is stifling creativity just at the time the world needs it most Gordon Torr draws from the leading lights of creativity research to demolish the myths that surround the generation of ideas in the modern organisation The curse of the brainstorm the commoditisation of creative talent the deskilling of the imagination the startling inadequacies of management theory these and the many other horrors of idea assassination that run rampant in creative sector companies are dissected and disembowelled in this hilarious expose of the drama that unfolds every time a new idea slides across the boardroom table This book sets out to address the black hole that surrounds the management of creative people debunking many myths of creativity and outlining a revolutionary approach to the pressing issue of creative productivity in the contemporary creative sector company A handbook of tools techniques methods and practical ideas whose USP is a framework for thinking about efficient creative management how to extract value from creative time Gordon Torr presents a logical argument that puts in place the building blocks of the author's knowledge and experience towards the final architecture We need them as never before And we know that they're somehow different Yet the productive management of creative people is an almost totally neglected science I doubt if there's a single industry that wouldn't gain immediate advantage from Gordon Torr's scrupulous and enlightening detective work

Jeremy Bullmore    Managing Others Creatively Ted Pollock, Pollock, 1974-12    **Managing Creativity in Science and Hi-Tech** Ronald Kay, 2012-12-06 The growing role of science and technology in modern society has generated a need for unique management skills on the part of scientists and engineers While this need is widely recognized there is little agreement on the most appropriate way in which it should be satisfied The general literature on management does not usually recognize the problems that are unique to those engaged in science and high technology This lack is also reflected in the considerable variety of formal management training which more often than not has missed its mark at least when judged by the response of participating scientists and engineers My recent experience teaching graduate students and practicing scientists and engineers about those aspects of management that are likely to be most relevant to their future endeavours has been the principle motivation for this book The book reflects some of what I have learned from that experience and has been further encouraged by the convictions that 1 the distribution of management potential among engineers and scientists is no different from that of other groups with comparable academic achievement 2 successfully managed scientific and technical enterprise provides the most useful source of learning and 3 the process of learning is facilitated by referring to the experience that has proven effective in creating an environment in which scientific and technical enterprise has flourished

**Managing People and Organizations in Changing Contexts** Graeme Martin, 2016-03-31 Managing People and

Organizations in Changing Contexts addresses the contemporary problems faced by managers in dealing with people organizations and change in a theoretically informed and practical way. This textbook approaches people management from the perspective of practising and aspiring managers, making it a valuable alternative to existing texts on organizational behaviour and human resource management. This new edition considers new emerging organizational forms such as e-lancing and recent management concerns such as employee engagement, de-professionalization, and the growing challenges of social media. Built around a chapter framework that connects different themes to managerial action and practices, this textbook covers a wide range of topics including managing at the individual, group, and organizational levels, change management, managing creativity and innovation, and corporate governance and corporate social responsibility. There is an increased international flavour reflected in the range of contemporary case studies and literature used throughout, which explore business and management problems in the private and public sectors. This text will be relevant to practising and aspiring managers studying people management, organizational behaviour, and change management.

**Managing Organizations in the Creative Economy** Paul Saintilan, David Schreiber, 2023-05-01. The creative and cultural industries represent a growing and important sector in the global economy. Thriving in these industries is particularly tough and organizations face unique challenges in the digital age. This textbook provides a vivid initiation into the creative industries workplace. *Managing Organizations in the Creative Economy* is the first textbook of its kind introducing organizational behaviour theories and applying them to the creative world. The text is underpinned by the latest research and theoretical insights into creative industries management and organizational behaviour, covering key topics such as structure, culture, and the management of change and creativity, as well as contemporary issues such as diversity, sustainability, managing stress, wellbeing, and self-care, and remote working. The authors bring theory to life through practical examples and cases provided by industry experts, supported by specially created companion videos featuring managerial responses to the cases. This second edition textbook provides readers with an updated applied theoretical understanding of organizational behaviour that will be of particular benefit to those looking to work in the creative and cultural industries. Students on courses such as arts business, arts management, and music business, and even students within the broader study of the entertainment and creative industries, will find this to be a vital read.

**Managing People in Changing Organizations** Graeme Martin, 2024-09-03. *Managing People in Changing Organizations* addresses the contemporary problems faced by managers in dealing with people organizations and change in a theoretically informed and practical way. It does so by drawing on classic studies in management, up-to-date research, including the author's own case studies and reflective exercises. This textbook approaches people management and organizational development from the perspective of practising and aspiring managers, making it a valuable alternative to existing texts on organizational behaviour, change management, and human resource management. This third edition incorporates new research and recent changes in technology, including artificial intelligence, work and job design, and

additional insights into innovation corporate governance and sustainability Built around a chapter framework that connects different themes to managerial action and practices this textbook covers a wide range of topics including managing at the individual group and organizational levels culture change managing internationally reputation management managing creativity and innovation and corporate governance corporate social responsibility and sustainability There is an increased international flavour reflected in the range of contemporary case studies and literature used throughout which explore business and management problems in the private and public sectors The content also reflects the author's recent experience of consulting and managing at board level This text will be relevant to practising and aspiring managers studying leadership people management organizational behaviour and development and change management on courses at later stage undergraduate masters doctoral and executive education levels *The New A-Z of Managing People* David Freemantle, 1999 Essential practices for being a great boss whether one is responsible for supervising ten one hundred or 10 000 employees
