Managing Without Managers Ricardo Semler, 1989-01-01      *Managing Without Managers* Shan Martin, 1983-04 A management consultant proposes an entirely original approach to the streamlining of public enterprise In her view workers with practical experience often know what needs to be done far better than managers She shows how management often fails in its role as source of ideas how management has grown disproportionately and how its power to make decisions has been eroded She proposes a new model in which the people who are responsible for the work are also the people who do it raises some provocative questions and presents some thoughtful arguments in support of the idea of eliminating some of the excessive layers of management in the public service American Political Science Review Vol 78      **Made Without Managers** Mayden Team, Alison Sturgess Durden, Chris May, Dr Philippa Kindon, 2023-01-19 Can we manage without managers Brought to life through the true stories of the real people who work there Made Without Managers shares one company's eye opening experiences of a different way of working Concerned that the constraints of conventional line management structures might stand in the way of exceptional innovation and unrivalled customer service the team at Mayden decided to break free from traditional approaches to people hierarchies and take a liberating exciting and sometimes rocky journey into the extraordinary instead What they created was a successful dynamic future focused company that no longer relies on an outdated blueprint of traditional hierarchical management to get things done What they learned can benefit any business that's looking for more forward thinking ways of working ways that have the potential to unlock remarkable levels of empowerment creativity collaboration and productivity This authentic and compelling account provides an unprecedented opportunity to go behind closed doors and discover the truth about the realities of working in and running a self managing organisation directly from the people that have lived and worked through it themselves Learn about the pitfalls as well as the possibilities experience the struggles alongside the successes and shine a light on what it really takes to achieve prosper survive and thrive in a business that's made without managers      *Management* Arthur G.
