## **Managing Mental Health Service:**

**Managing Managed Care** Committee on Quality Assurance and Accreditation Guidelines for Managed Behavioral Health Care, Institute of Medicine, 1997-05-05 Managed care has produced dramatic changes in the treatment of mental health and substance abuse problems known as behavioral health. Managing Managed Care offers an urgently needed assessment of managed care for behavioral health and a framework for purchasing, delivering, and ensuring the quality of behavioral health care. It presents the first objective analysis of the powerful multimillion dollar accreditation industry and the key accrediting organizations. Managing Managed Care draws evidence based conclusions about the effectiveness of behavioral health treatments and makes recommendations that address consumer protections, quality improvements, structure and financing roles of public and private participants, inclusion of special populations and ethical issues. The volume discusses trends in managed behavioral health care, highlighting the emerging role of the purchaser. The committee explores problems of overlap and fragmentation in the delivery of behavioral health care and discusses the issue of access, a special concern when private systems are restricted and public systems overburdened. Highly applicable to the larger health care system, this volume will be of particular interest to all stakeholders in behavioral health: federal and state policymakers, public and private purchasers, health care providers and administrators, consumers and consumer advocates, accrediting organizations and health services researchers.

[Clinical Management in Mental Health Services](#) Chris Lloyd, Robert King, Frank Deane, Kevin Gournay, 2009-03-17 Clinical Management in Mental Health Services is a practical guide to the day to day operational management of mental health teams. It explores both the theoretical aspects of management plus strategies for dealing with the wide range of management issues faced by managers working in mental health. It looks at issues such as leading a multidisciplinary team, Communication and Public Relations, the importance of clinical supervision, evidence based practice and quality assurance. It addresses the issue of workload management, clinical information management, how to plan a budget and how to manage stress.

**Managing Mental Health Services** Reynolds, Amanda, Thornicroft, Graham, 1999-06-01 This is a practical no nonsense book designed to help managers of mental health services cope, survive and constructively fulfil their role. It has been written to help managers to function in an increasingly complex mental health service arena. In clear jargon free language it aims to demystify key managerial terms to provide an understandable summary of the relevant policy and legal framework and to provide signposts to assist managers in making their way through the maze of service planning and service development options.

**Handbook of Mental Health Administration and Management** William H. Reid, Stuart B. Silver, 2013-08-21 Clinicians who understand mental health care administration in addition to their clinical fields are likely to be valuable to the organizations in which they work. This handbook is an accessible source of information for professionals coming from either clinical or management backgrounds. Sections offer coverage in mental health administrative principles, mental health care management, business, finance and

funding of care information technology human resources and legal issues
