*Creating the Hudson River Park* Tom Fox, 2024-04-12 The 4 mile long 550 acre Hudson River Park is nearing completion and is the largest park built in Manhattan since Central Park opened more than 150 years ago It has transformed a derelict waterfront protected the Hudson River estuary preserved commercial maritime activities created new recreational opportunities for millions of New Yorkers enhanced tourism stimulated redevelopment in adjacent neighborhoods and set a precedent for waterfront redevelopment The Park attracts seventeen million visitors annually Creating the Hudson River Park is a first person story of how this park came to be Working together over three decades community groups civic and environmental organizations labor the real estate and business community government agencies and elected officials won a historic victory for environmental preservation the use and enjoyment of the Hudson River and urban redevelopment However the park is also the embodiment of a troubling trend toward the commercialization of America's public parks After the defeat of the 2.4 billion Westway plan to fill 234 acres of the Hudson in 1985 the stage was set for the revitalization of Manhattan's West Side waterfront Between 1986 and 1998 the process focused on the basics like designing an appropriate roadway removing noncompliant municipal and commercial activities from the waterfront implementing temporary improvements developing the Park's first revenue producing commercial area at Chelsea Piers completing the public planning and environmental review processes and negotiating the 1998 Hudson River Park Act that officially created the Park From 1999 to 2009 planning and construction were funded with public money and focused on creating active and passive recreation opportunities on the Tribeca Greenwich Village Chelsea and Hell's Kitchen waterfronts However initial recommendations to secure long term financial support for the Park from the increase in adjacent real estate values that resulted from the Park's creation were ignored City and state politicians had other priorities and public funding for the Park dwindled The recent phase of the project from 2010 to 2021 focused on development both in and adjacent to the Park Changes in leadership and new challenges provide an opportunity to return to a transparent public planning process and complete the redevelopment of the waterfront for the remainder of the 21st century Fox's first person perspective helps to document the history of the Hudson River Park recognizes those who made it happen and those who made it difficult and provides lessons that may help private citizens and public servants expand and protect the public parks and natural systems that are so critical to urban well being

**Rebuilding Crime Prevention Through Environmental Design** Rachel Armitage, Paul Ekblom, 2019-02-11 Crime Prevention Through Environmental Design CPTED is a practice oriented approach to reduce the risk of offences such as burglary and fear of crime by modifying the built environment In recent years this

approach has been criticised for duplicating terminology and for failing to integrate successfully with other approaches Rebuilding Crime Prevention Through Environmental Design explores and extends the common ground between CPTED and situational crime prevention another traditional approach in the field of crime prevention and security via the latter's evolution into the field of crime science Drawing on international research to develop new interdisciplinary perspectives this volume explores how situational crime prevention and environmental criminological theories relate to those of Crime Prevention Through Environmental Design and considers how crime science can be reformulated to merge different approaches or at least articulate them better Rebuilding Crime Prevention Through Environmental Design will appeal to students applied academic researchers and practitioners who wish to deepen their understanding and contribute in turn to the ongoing revitalisation of the field Homegrown Alexander Meleagrou-Hitchens, Seamus Hughes, Bennett

Clifford, 2020-11-12 How big is the threat posed by American ISIS supporters How many Americans have joined ISIS and how many want to return to the United States Compared to participation by Americans in other jihadist groups the scale of American involvement in jihadist activity today is unprecedented This book from one of the leading counter terror centres draws on first hand interviews with former American Islamic State members and law enforcement officials who tracked them and includes detailed analysis of the court cases against them and their social media presence Homegrown reveals how and why ISIS was able to radicalize and recruit a new generation of jihadist sympathizers in America **The Terror Timeline** Paul Thompson, 2004-09-07 Paul Thompson's The Terror Timeline offers a complete and thorough history of the many roads that converged on 9 11 including the development of Islamic fundamentalism the activities of bin Laden and al Qaeda and the failures of U S investigations and counterterrorism efforts It traces the actions and inactions of every important figure in the war on terror both before and after 9 11 bringing them together in a volume that offers a comprehensive and provocative look at this complex subject Packed with little known facts and disturbing questions The Terror Timeline is the first complete reference guide to the events of 9 11 and the war on terror the definitive primer on the most momentous issue of our times

**There Are No Accidents** Jessie Singer, 2022-02-15 A journalist recounts the surprising history of accidents and reveals how they've come to define all that's wrong with America We hear it all the time Sorry it was just an accident And we've been deeply conditioned to just accept that explanation and move on But as Jessie Singer argues convincingly There are no such things as accidents The vast majority of mishaps are not random but predictable and preventable Singer uncovers just how the term accident itself protects those in power and leaves the most vulnerable in harm's way preventing investigations pushing off debts blaming the victims diluting anger and even sparking empathy for the perpetrators As the rate of accidental death skyrockets in America the poor and people of color end up bearing the brunt of the violence and blame while the powerful use the excuse of the accident to avoid consequences for their actions Born of the death of her best friend and the killer who insisted it was an accident this book is a moving investigation of the sort of tragedies that are all too

common and all too commonly ignored In this revelatory book Singer tracks accidental death in America from turn of the century factories and coal mines to today s urban highways rural hospitals and Superfund sites Drawing connections between traffic accidents accidental opioid overdoses and accidental oil spills Singer proves that what we call accidents are hardly random Rather who lives and dies by an accident in America is defined by money and power She also presents a variety of actions we can take as individuals and as a society to stem the tide of accidents saving lives and holding the guilty to account
